"(1) STATES.—

"(A) POPULATION BASIS.—Except as provided in subparagraphs (B) and (C) and after the reservation required by subsection (b) has been made, from the remainder of the amounts appropriated for each such fiscal year to carry out this part, the Commissioner shall make an allotment to each State whose State plan has been approved under section 706 of an amount bearing the same ratio to such remainder as the population of the State bears to the population of all States.

"(B) MAINTENANCE OF 1992 AMOUNTS.—Subject to the availability of appropriations to carry out this part, the amount of any allotment made under subparagraph (A) to a State for a fiscal year shall not be less than the amount of financial assistance received by centers for independent living in the State for fiscal year 1992 under part B of this title, as in effect on the day before the date of enactment of the Rehabilitation Act Amendments of 1992.

"(C) MINIMUMS.—Subject to the availability of appropriations to carry out this part and except as provided in subparagraph (B), for a fiscal year in which the amounts appropriated to carry out this part exceed the amounts appropriated for fiscal year 1992 to carry out part B of this title, as in effect on the day before the date of enactment of the Rehabilitation Act Amendments of 1992—

"(i) if such excess is not less than $8,000,000, the allotment to any State under subparagraph (A) shall be not less than $450,000 or one-third of one percent of the sums made available for the fiscal year for which the allotment is made, whichever is greater, and the allotment of any State under this section for any fiscal year that is less than $450,000 or one-third of one percent of such sums shall be increased to the greater of the two amounts;

"(d) REALLOTMENT.—Whenever the Commissioner determines that any amount of an allotment to a State for any fiscal year will not be expended by such State for carrying out the provisions of this part, the Commissioner shall make such amount available for carrying out the provisions of this part to one or more of the States that the Commissioner determines will be able to use additional amounts during such year for carrying out such provisions. Any amount made available to a State for any fiscal year pursuant to the preceding sentence shall, for the purposes of this section, be regarded as an increase in the allotment of the State (as determined under the preceding provisions of this section) for such year.

"SEC. 736. AUTHORITY TO ASSESS AND USE DRUG FEES.

"(a) TYPES OF FEES.—Beginning in fiscal year 1993, the Secretary shall assess and collect fees in accordance with this section as follows:

"(1) HUMAN DRUG APPLICATION AND SUPPLEMENT FEE.—

"(A) IN GENERAL.—Each person that submits, on or after September 1, 1992, a human drug application or a supplement shall be subject to a fee as follows:

"(i) A fee established in subsection (b) for a human drug application for which clinical data (other than bioavailability or bioequivalence studies) with respect to safety or effectiveness are required for approval.

"(ii) A fee established in subsection (b) for a human drug application for which clinical data with respect to safety or effectiveness are not required or a supplement for which clinical data (other than bioavailability or bioequivalence studies) with respect to safety or effectiveness are required.

"(B) PAYMENT SCHEDULE.—

"(i) FIRST PAYMENT.—50 percent of the fee required by subparagraph (A) shall be due upon submission of the application or supplement.

"(ii) FINAL PAYMENT.—The remaining 50 percent of the fee required by subparagraph (A) shall be due upon—

"(I) the expiration of 30 days from the date the Secretary sends to the applicant a letter designated by the Secretary as an action letter described in section 735(6)(B), or

"(II) the withdrawal of the application or supplement after it is filed unless the Secretary waives the fee or a portion of the fee because no substantial work was performed on such application or supplement after it was filed.

The designation under subclause (I) or the waiver under subclause (II) shall be solely in the discretion of the Secretary and shall not be reviewable.

"(C) EXCEPTION FOR PREVIOUSLY FILED APPLICATION OR SUPPLEMENT.—If a human drug application or supplement was submitted by a person that paid the fee for such application or supplement, was accepted for filing, and was not approved or was withdrawn (without a waiver), the submission of a human drug application or a supplement for the same product by the same person (or the person's licensee, assignee, or successor) shall not be subject to a fee under subparagraph (A).

shall be subject to the annual fee established in subsection (b) for each such establishment, payable on or before January 31 of each year.

Such fee shall be paid only once each year for each listed prescription drug product irrespective of the number of times such product is listed under section 510.

"(b) FEE AMOUNTS.—

"(1) SCHEDULE.—Except as provided in paragraph (2) and subsections (c), (d), (f), and (g), the fees required under subsection (a) shall be paid in accordance with the following schedule:

Total fee revenues	$36,000,000	$54,000,000	$75,000,000	$78,000,000	$84,000,000

"(2) SMALL BUSINESS EXCEPTION.—Any business which has fewer than 500 employees, including employees of affiliates, and which does not have a prescription drug product introduced

or delivered for introduction into interstate commerce shall pay one-half the amount of the fee for human drug applications it submits and shall pay the entire amount of the fee for supplements it submits. Such a business shall not be required to pay any portion of any fee required under subsection (a)(1)(A) until 1 year after the date of the submission of the application involved. For purposes of this paragraph, one business is an affiliate of another business when, directly or indirectly, one business controls, or has the power to control, the other business or a third party controls, or has the power to control, both businesses.

"(c) INCREASES AND ADJUSTMENTS.—

Federal Register, publication.

"(1) REVENUE INCREASE.—The total fee revenues established by the schedule in subsection (b)(1) shall be increased by the Secretary by notice, published in the Federal Register, for a fiscal year to reflect the greater of—

"(A) the total percentage increase that occurred during the preceding fiscal year in the Consumer Price Index for all urban consumers (all items; U.S. city average), or

"(B) the total percentage increase for such fiscal year in basic pay under the General Schedule in accordance with section 5332 of title 5, United States Code, as adjusted by any locality-based comparability payment pursuant to section 5304 of such title for Federal employees stationed in the District of Columbia.

"(2) ANNUAL FEE ADJUSTMENT.—Subject to the amount appropriated for a fiscal year under subsection (g), the Secretary shall, within 60 days after the end of each fiscal year beginning after October 1, 1992, adjust the fees established by the schedule in subsection (b)(1) for the following fiscal year to achieve the total fee revenues, as may be increased under paragraph (1). Such fees shall be adjusted under this paragraph to maintain the proportions established in such schedule.

"(3) LIMIT.—The total amount of fees charged, as adjusted under paragraph (2), for a fiscal year may not exceed the total costs for such fiscal year for the resources allocated for the process for the review of human drug applications.

"(d) FEE WAIVER OR REDUCTION.—The Secretary shall grant a waiver from or a reduction of 1 or more fees under subsection (a) where the Secretary finds that—

"(1) such waiver or reduction is necessary to protect the public health,

"(2) the assessment of the fee would present a significant barrier to innovation because of limited resources available to such person or other circumstances,

"(3) the fees to be paid by such person will exceed the anticipated present and future costs incurred by the Secretary in conducting the process for the review of human drug applications for such person, or

"(4) assessment of the fee for an application or a supplement filed under section 505(b)(1) pertaining to a drug containing an active ingredient would be inequitable because an application for a product containing the same active ingredient filed by another person under section 505(b)(2) could not be assessed fees under subsection (a)(1).

In making the finding in paragraph (3), the Secretary may use standard costs.

"(e) EFFECT OF FAILURE TO PAY FEES.—A human drug application or supplement submitted by a person subject to fees under subsection (a) shall be considered incomplete and shall not be accepted for filing by the Secretary until all fees owed by such person have been paid.

"(f) ASSESSMENT OF FEES.—

"(1) LIMITATION.—Fees may not be assessed under subsection (a) for a fiscal year beginning after fiscal year 1993 unless appropriations for salaries and expenses of the Food and Drug Administration for such fiscal year (excluding the amount of fees appropriated for such fiscal year) are equal to or greater than the amount of appropriations for the salaries and expenses of the Food and Drug Administration for the fiscal year 1992 multiplied by the adjustment factor applicable to the fiscal year involved.

"(2) AUTHORITY.—If the Secretary does not assess fees under subsection (a) during any portion of a fiscal year because of paragraph (1) and if at a later date in such fiscal year the Secretary may assess such fees, the Secretary may assess and collect such fees, without any modification in the rate, for human drug applications and supplements, prescription drug establishments, and prescription drug products at any time in such fiscal year notwithstanding the provisions of subsection (a) relating to the date fees are to be paid.

"(g) CREDITING AND AVAILABILITY OF FEES.—

"(1) IN GENERAL.—Fees collected for a fiscal year pursuant to subsection (a) shall be credited to the appropriation account for salaries and expenses of the Food and Drug Administration and shall be available in accordance with appropriation Acts until expended without fiscal year limitation.

"(2) COLLECTIONS AND APPROPRIATION ACTS.—The fees authorized by this section—

"(A) shall be collected in each fiscal year in an amount equal to the amount specified in appropriation Acts for such fiscal year, and

"(B) shall only be collected and available to defray increases in the costs of the resources allocated for the process for the review of human drug applications (including increases in such costs for an additional number of full-time equivalent positions in the Department of Health and Human Services to be engaged in such process) over such costs for fiscal year 1992 multiplied by the adjustment factor.

"(3) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated for fees under this section—

"(A) $36,000,000 for fiscal year 1993,

"(B) $54,000,000 for fiscal year 1994,

"(C) $75,000,000 for fiscal year 1995,

"(D) $78,000,000 for fiscal year 1996, and

"(E) $84,000,000 for fiscal year 1997,

as adjusted to reflect increases in the total fee revenues made under subsection (c)(1).

"(h) COLLECTION OF UNPAID FEES.—In any case where the Secretary does not receive payment of a fee assessed under subsection (a) within 30 days after it is due, such fee shall be treated as a claim of the United States Government subject to subchapter II of chapter 37 of title 31, United States Code.

"(i) CONSTRUCTION.—This section may not be construed to require that the number of full-time equivalent positions in the Department of Health and Human Services, for officers, employers, and advisory committees not engaged in the process of the review of human drug applications, be reduced to offset the number of officers, employees, and advisory committees so engaged.".

21 USC 379g note.

The studies shall also evaluate the potential for changes in existing importation patterns and quantities of water from the Weber and Duchesne River Basins, and shall describe the economic and environmental consequences of each alternative identified. In addition to funds appropriated after the enactment of this Act, the Secretary is authorized to utilize section 8 funds which may be available from fiscal year 1993 appropriations for the Central Utah Project for the purposes of carrying out the studies described in this paragraph.

(B) The cost of the studies provided for in subparagraph (A) shall be treated as an expense under section 8: *Provided,*

however, That the cost of such study shall be reallocated proportionate with project purposes in the event any conveyance alternative is subsequently authorized and constructed. Within its available funds, the United States Geological Survey is directed to consult with the District in the preparation of the study identified in paragraph (5)(A)(i).

(6) COMPLETION OF DIAMOND FORK SYSTEM.—(A) Of the amounts authorized to be appropriated under section 201, $69,000,000 shall be available to complete construction of the Diamond Fork System.

(B) In lieu of construction by the Secretary, the facilities specified in paragraph (A) shall be constructed by the District under the program guidelines authorized by Drainage Facilities and Minor Construction Act (Act of June 13, 1956, 70 Stat. 274, 43 U.S.C. 505). The sixty-day congressional notification of the Secretary's intent to use the Drainage Facilities and Minor Construction Act program is hereby waived with respect to construction of the features authorized in section 202(a)(6). Any such feature may be operated, maintained, and repaired by the District in accordance with repayment contracts and operation and maintenance agreements previously entered into between the Secretary and the District. The United States shall not be liable for damages resulting from the design, construction, operation, maintenance, and replacement by the District of the features specified in subparagraph (A) of this paragraph.

(b) STRAWBERRY WATER USERS ASSOCIATION.—(1) In exchange for, and as a precondition to approval of the Strawberry Water Users Association's petition for Bonneville Unit water, the Secretary, after consultation with the Secretary of Agriculture, shall impose conditions on such approval so as to ensure that the Strawberry Water Users Association shall manage and develop the lands referred to in subparagraph 4(e)(1)(A) of the Act of October 31, 1988 (102 Stat. 2826, 2828) in a manner compatible with the management and improvement of adjacent Federal lands for wildlife purposes, natural values, and recreation.

Such Federal lands shall be rehabilitated pursuant to subsection 4(f) of the Act of October 31, 1988 (102 Stat. 2826, 2828) and hereafter managed and improved for wildlife purposes, natural values, and recreation consistent with the Uinta National Forest Land and Natural Resource Management Plan. This restriction shall not apply to the 95 acres referred to in the first sentence of subparagraph 4(e)(1)(A) of the Act of October 31, 1988 (102 Stat. 2826, 2828), valid existing rights, or to uses of such Federal lands by the Secretary of Agriculture or the Secretary for public purposes.

(c) The Secretary is authorized to utilize any unexpended budget authority provided in title II and such funds as may be provided by the Commission for fish and wildlife purposes, to provide 65 percent Federal share pursuant to section 204, of engineering, design, and construction of Hatchtown dam in Garfield County and associated facilities to deliver supplemental project water from Hatchtown dam. The District shall establish a viable minimum conservation pool in Hatchtown dam and shall ensure maintenance

of viable instream flows in the Sevier River between Hatchtown dam and the Piute dam with the concurrence of the Commission and in consultation with the Division of Wildlife Resources of the State of Utah. The District shall comply with the provisions of section 202(a)(1) with respect to the features to be provided for in this subsection.

The amount identified in paragraph (5) shall be treated as an expense under section 8.

(b) EXPIRATION OF AUTHORIZATION.—The authorization to construct any of the features provided for in paragraphs (1) through (5) of subsection (a)—

(1) shall expire if no federally appropriated funds for such features have been obligated or expended by the District in accordance with this Act within five years from the date of completion of feasibility studies, or such longer time as necessitated for—

(A) completion, after the exercise of due diligence, of compliance measures outlined in a biological opinion issued pursuant to the Endangered Species Act (16 U.S.C. 1533 et seq.) for any species that is or may be listed as threatened or endangered under such Act: *Provided, however,* That such extension of time for the expiration of authorization shall not exceed 12 months beyond the five-year period provided in this paragraph; or

(B) judicial review of environmental studies prepared in compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) if such review was initiated by parties other than the District, the State, or petitioners of project water; and

(2) shall expire if the Secretary determines that such feature is not feasible.

(c) REQUIREMENT FOR BINDING CONTRACTS.—Amounts authorized to carry out subsection (a), paragraphs (1) through (4) may not be obligated or expended, and may not be borrowed against, until binding contracts for the purchase of at least 90 percent of the supplemental irrigation water to be delivered from the features of the Central Utah Project described in subsection (a), paragraphs (1) through (4) have been executed.

(d) NON-FEDERAL OPTION.—In lieu of construction by the Secretary, the features described in subsection (a), paragraphs (1) through (5) shall be constructed by the District under the program guidelines authorized by the Drainage Facilities and Minor Construction Act (Act of June 13, 1956, 70 Stat. 274, 43 U.S.C. 505). Any such feature may be operated, maintained, and repaired by the District in accordance with repayment contracts and operation and maintenance agreements previously entered into between the Secretary and the District. The United States shall not be liable for damages resulting from the design, construction, operation, maintenance, and replacement by the District of the features specified in subsection (a) of this section.

(e) WATER RIGHTS.—To make water rights available for any of the features constructed as authorized in this section, the Bureau shall convey to the District in accordance with State law the water rights evidenced by Water Right No. 43–3825 (Application No. A36642) and Water Right No. 43–3827 (Application No. A36644).

(A) administer the Uintah Indian Irrigation Project, or part thereof, and

(B) operate, maintain, rehabilitate, and construct all or some of the irrigation project facilities using the same administrative authority and management procedures as used by water user organizations formed under State laws who administer, operate, and maintain irrigation projects.

(2) Title to Uintah Indian Irrigation Project rights-of-way and facilities shall remain in the United States. The Secretary shall retain any trust responsibilities to the Uintah Indian Irrigation Project.

(3) Notwithstanding any other provision of law, the Secretary shall use funds received from assessments, carriage agreements, leases, and all other additional sources related to the Uintah Indian Irrigation Project exclusively for Uintah Indian Irrigation Project administration, operation, maintenance, rehabilitation, and construction where appropriate. Upon receipt, the Secretary shall deposit such funds in an account in the Treasury of the United States. Amounts in the account not currently needed shall earn interest at the rate determined by the Secretary of the Treasury, taking into consideration current market yields on outstanding obligations of the United States with remaining periods to maturity comparable to the period for which such funds are not currently needed. Amounts in the account shall be available without further authorization or appropriation by Congress. Such amounts shall be treated as private funds to be held in trust for landowners of the irrigation project and shall not be treated as public or appropriated funds.

(4) All noncontract costs, direct and indirect, required to administer the Uintah Indian Irrigation Project shall be nonreimbursable and paid for by the Secretary as part of his trust responsibilities, beginning on the date of enactment of this Act. Such costs shall include (but not be limited to) the noncontract cost positions of project manager or engineer and two support staff. Such costs shall be added to the funding of the Uintah and Ouray Agency of the Bureau of Indian Affairs as a line item.

Such water shall be marketed and used in conformance with State law.

(2) The Secretary, through the Bureau, shall—

(A) establish a conservation pool of 4,000 acre-feet in Red Fleet Reservoir for the purpose of enhancing associated fishery and recreational opportunities and for such other purposes as may be recommended by the Commission in consultation with the Utah Division of Wildlife Resources, United States Fish and Wildlife Service, and the Utah Division of Parks and Recreation; and

Contracts.

(B) enter into an agreement with the Utah Division of Parks and Recreation for the management and operation of Red Fleet recreational facilities.

SEC. 204. NON-FEDERAL CONTRIBUTION.

The non-Federal share of the cost for the design, engineering, and construction of the Central Utah Project features authorized by sections 202 and 203 shall be 35 percent of the total reimbursable costs and shall be paid concurrently with the Federal share, except that for the facilities specified in 202(a)(6), the cost-share shall be 35 percent of the costs allocated to irrigation beyond the ability of irrigators to repay. The non-Federal share of the cost for studies required by sections 202 and 203, other than the study required by section 202(a)(5), shall be 50 percent and shall be paid concurrently with the Federal share. Within one hundred and twenty days of enactment of this Act, the Secretary shall execute a cost sharing agreement which binds the District to provide annually such sums as may be required to satisfy the non-Federal share of the separate features authorized and approved for construction pursuant to this Act. The Secretary is not authorized to broaden the scope of the cost sharing agreement beyond assuring that the

non-Federal interests will satisfy the cost sharing provisions as set forth in this section. Any feature to which this section applies shall not be initiated until after the non-Federal interests enter into a cost sharing agreement with the Secretary to provide the share required by this section. The District may commence any study authorized herein prior to entering into a cost sharing agreement, and upon execution of a cost sharing agreement the Secretary shall reimburse the District an amount equal to the Federal share of the funds expended by the District.

SEC. 205. DEFINITE PLAN REPORT AND ENVIRONMENTAL COMPLIANCE.

(a) DEFINITE PLAN REPORT AND FEASIBILITY STUDIES.—Except for amounts required for compliance with applicable environmental laws and the purposes of this subsection, federally appropriated funds may not be obligated or expended by the District for construction of the features authorized in section 202(a)(1) or 203 until—

(1) the District completes—

(A) a Definite Plan Report for the system authorized in section 202(a)(1), or

(B) an analysis to determine the feasibility of the separate features described in section 203(a), paragraphs (1) through (4), or subsection (f);

(2) the requirements of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) have been satisfied with respect to the particular system; and

(3) a plan has been developed with and approved by the United States Fish and Wildlife Service to prevent any harmful contamination of waters due to concentrations of selenium or other such toxicants, if the Service determines that development of the particular system may result in such contamination.

Contracts.

(b) COMPLIANCE WITH ENVIRONMENTAL LAWS AND THE TERMS OF THIS ACT.—Notwithstanding any other provision of this Act, Federal funds authorized under this title may not be provided to the District until the District enters into a binding agreement with the Secretary to be considered a "Federal Agency" for purposes of compliance with all Federal fish, wildlife, recreation, and environmental laws with respect to the use of such funds, and to comply with this Act. The Secretary shall execute such binding agreement within one hundred and twenty days of enactment of this Act.

(c) INITIATION OF REPAYMENT.—For purposes of repayment of costs obligated and expended prior to the date of enactment of this Act, the Definite Plan Report shall be considered as being filed and approved by the Secretary, and repayment of such costs shall be initiated by the Secretary of Energy at the earliest possible date. All the costs allocated to irrigation and associated with construction of the Strawberry Collection System, a component of the Bonneville Unit, obligated prior to the date of enactment of this Act shall be included by the Secretary of Energy in the costs specified in this subsection.

(d) Of the amounts authorized in section 201, the Secretary is directed to make sums available to the District as required by the District, for the completion of the plans, studies, and analyses required by this section pursuant to the cost sharing provisions of section 204.

(e) CONTENT AND APPROVAL OF THE DEFINITE PLAN REPORT.—The Definite Plan Report required under this section shall include

economic analyses consistent with the Economic and Environmental Principles and Guidelines for Water and Related Land Resources Implementation Studies (March 10, 1983). The Secretary may withhold approval of the Definite Plan Report only on the basis of the inadequacy of the document, and specifically not on the basis of the findings of its economic analyses.

SEC. 206. LOCAL DEVELOPMENT IN LIEU OF IRRIGATION AND DRAINAGE.

(a) OPTIONAL REBATE TO COUNTIES.—(1) After two years from the date of enactment of this Act, the District shall, at the option of an eligible county as provided in paragraph (2), rebate to such county all of the ad valorem tax contributions paid by such county to the District, with interest but less the value of any benefits received by such county and less the administrative expenses incurred by the District to that date.

(2) Counties eligible to receive the rebate provided for in paragraph (1) include any county within the District, except for Salt Lake County and Utah County, in which the construction of Central Utah Project water storage or delivery features authorized in this Act has not commenced and—

(A) in which there are no binding contracts as required under section 202(1)(C); or

(B) in which the authorization for the project or feature was repealed pursuant to section 201(b) or expired pursuant to section 202(1)(B) of this Act.

Grants.

(b) LOCAL DEVELOPMENT OPTION.—(1) Upon the request of any eligible county that elects not to participate in the project as provided in subsection (a), the Secretary shall provide as a grant to such county an amount that, when matched with the rebate received by such county, shall constitute 65 percent of the cost of implementation of measures identified in paragraph (2).

(2)(A) The grant provided for in this subsection shall be available for the following purposes:

(i) Potable water distribution and treatment.

(ii) Wastewater collection and treatment.

(iii) Agricultural water management.

(iv) Other public infrastructure improvements as may be approved by the Secretary.

(B) Funds made available under this subsection may not be used for—

(i) draining of wetlands;

(ii) dredging of natural water courses; and

(iii) planning or constructing water impoundments of greater than five thousand acre-feet, except for the proposed Hatch Town Dam on the Sevier River in southern Garfield County, Utah.

(C) All Federal environmental laws shall be applicable to any projects or features developed pursuant to this section.

(3) Of the amounts authorized to be appropriated by section 201, not more than $40,000,000 may be available for the purposes of this subsection.

SEC. 207. WATER MANAGEMENT IMPROVEMENT.

(a) PURPOSES.—The purposes of this section are, through such means as are cost-effective and environmentally sound, to—

(1) encourage the conservation and wise use of water;

(2) reduce the probability and duration of periods necessitating extraordinary curtailment of water use;

(3) achieve beneficial reductions in water use and system costs;

(4) prevent or eliminate unnecessary depletion of waters in order to assist in the improvement and maintenance of water quantity, quality, and streamflow conditions necessary to augment water supplies and support fish, wildlife, recreation, and other public benefits;

(5) make prudent and efficient use of currently available water prior to any importation of Bear River water into Salt Lake County, Utah; and

(6) provide a systematic approach to the accomplishment of these purposes and an objective basis for measuring their achievement.

(b) WATER MANAGEMENT IMPROVEMENT PLAN.—The District, after consultation with the State and with each petitioner of project water, shall prepare and maintain a water management improvement plan. The first plan shall be submitted to the Secretary by January 1, 1995. Every three years thereafter the District shall prepare and submit a supplement to this plan. The Secretary shall either approve or disapprove such plan or supplement thereto within six months of its submission.

(1) ELEMENTS.—The plan shall include the following elements:

(A) A water conservation goal, consisting of the greater of the following two amounts for each petitioner of project water:

(i) 25 percent of each petitioner's projected increase in annual water deliveries between the years 1990 and 2000, or such later ten-year period as the District may find useful for planning purposes; or

(ii) the amount by which unaccounted for water or, in the case of irrigation entities, transport losses, exceeds 10 percent of recorded annual water deliveries.

The minimum goal for the District shall be thirty thousand acre-feet per year. In the event that the pipeline conveyance system described in section 202(a)(1)(A) is not constructed due to expiration of the authorization pursuant to section 202(a)(1)(B), the minimum goal for the District shall be reduced by five thousand acre-feet per year. In the event that the Wasatch County Water Efficiency Project authorized in section 202(a)(3)(B) is not constructed due to expiration of the authorization pursuant to section 202(a)(3)(D), the minimum goal for the District shall be reduced by five thousand acre-feet per year. In the event the water supply which would have been supplied by the pipeline conveyance system described in section 202(a)(1)(A) is made available and delivered to municipal and industrial or agricultural petitioners in Salt Lake, Utah or Juab counties subsequent to the expiration of the authorization pursuant to section 202(a)(1)(B), the minimum goal for the District shall increase five thousand acre-feet per year. In no event shall the minimum goal for the District be less than twenty thousand acre-feet per year.

(B) A water management improvement inventory, containing—

(i) conservation measures to improve the efficiency of the storage, conveyance, distribution, and use of water in a manner that contributes to the accomplishment of the purposes of this section, exclusive of any measures promulgated pursuant to subsection (f)(2)(A) through (D);

(ii) the estimated economic and financial costs of each such measure;

(iii) the estimated water yield of each such measure; and

(iv) the socioeconomic and environmental effects of each such measure.

(C) A comparative analysis of each cost-effective and environmentally acceptable measure.

(D) A schedule of implementation for the following five years.

(E) An assessment of the performance of previously implemented conservation measures, if any. Each plan or plan supplement shall be technically sound, internally consistent and supported by objective analysis.

Not less than ninety days prior to its transmittal to the Secretary, the plan, or plan supplement, together with all supporting documentation demonstrating compliance with this section, shall be made available by the District for public review, hearing, and comment. All significant comments, and the District's response thereto, shall accompany the plan transmitted to the Secretary.

(2) EVALUATION OF CONSERVATION MEASURES.—

(A) Any conservation measure proposed to the District by the Executive Director of the Utah Department of Natural Resources shall be added to the water management improvement inventory and evaluated by the District. Any conservation measure, up to a cumulative five in number within any three-year period, submitted by nonprofit sportsmen or environmental organizations shall be added to the water management improvement inventory and evaluated by the District.

(B) Each conservation measure that is found to be cost-effective, without significant adverse impact to the financial integrity of the District or a petitioner of project water, environmentally acceptable and for which the requirements of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) have been satisfied, and in the public interest shall be deemed to constitute the "active inventory". For purposes of this section, the determination of benefits shall take into account:

(i) the value of saved water, to be determined, in the case of municipal water, on the basis of the project municipal and industrial repayment obligation of the District, but in no case less than $200 per acre-foot, and, in the case of irrigation water, on the basis of operation, maintenance, and replacement costs plus the "full cost" rate for irrigation computed in accordance with section 302(3) of the Reclamation Reform Act of 1982 (96 Stat. 1263; 43 U.S.C. 390bb), but in no case less than $50 per acre-foot;

(ii) the reduced cost of wastewater treatment, if any;

(iii) net additional hydroelectric power generation, if any, valued at avoided cost;

(iv) net savings in operation, maintenance, and replacement costs; and

(v) net savings in on-farm costs.

(3) IMPLEMENTATION.—The District, and each petitioner of project water, as appropriate, shall implement and maintain, consistent with State law, conservation measures placed in the active inventory to the maximum practical extent necessary to achieve 50 percent of the water conservation goal within seven years after submission of the initial plan and 100 percent of the water conservation goal within fifteen years after submission of the initial plan. Priority shall be given to implementation of the most cost-effective measures that are—

(A) found to reduce consumptive use of water without significant adverse impact to the financial integrity of the District or the petitioner of project water;

(B) environmentally acceptable and for which the requirements of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) has been satisfied; and

(C) found to be in the public interest.

(4) USE OF SAVED WATER.—All water saved by any conservation measure implemented by the District or a petitioner of project water under subsection (b)(3) may be retained by the District or the petitioner of project water which saved such water for its own use or disposition. The specific amounts of water saved by any conservation measure implemented under subsection (b)(3) shall be based upon the determination of yield under paragraph (b)(1)(B)(iii), and as may be confirmed or modified by assessment pursuant to paragraph (b)(1)(E). Each petitioner of project water may make available to the District water in an amount equivalent to the water saved, which the District may make available to the Secretary for instream flows in addition to the stream flow requirements established by section 303. Such instream flows shall be released from project facilities, subject to space available in project conveyance systems, to at least one watercourse in the Bonneville and Uinta River Basins, respectively, to be designated by the United States Fish and Wildlife Service as recommended by the Interagency Biological Assessment Team. Such flows shall be protected against appropriation in the same manner as the minimum streamflow requirements established by section 303. The Secretary shall reduce the annual contractual repayment obligation of the District equal to the project rate for delivered water, including operation and maintenance expenses, for water saved for instream flows pursuant to this subsection. The District shall credit or rebate to each petitioner of project water its proportionate share of the District's repayment savings for reductions in deliveries of project water as a result of this subsection.

(5) STATUS REPORT ON THE PLANNING PROCESS.—Prior to January 1, 1994, the District shall establish a continuous process for the identification, evaluation, and implementation of water conservation measures to achieve the purposes of this section, and submit a report thereon to the Secretary. The

report shall include a description of this process, including its financial resources, technical support, public involvement, and identification of staff responsible for its development and implementation.

(c) WATER CONSERVATION PRICING STUDY.—

(1) Within three years from the date of enactment of this Act, the District, after consultation with the State and each petitioner of project water, shall prepare and transmit to the Secretary a study of wholesale and retail pricing to encourage water conservation as described in this subsection, together with its conclusions and recommendations.

(2) The purposes of this study are—

(A) to design and evaluate potential rate designs and pricing policies for water supply and wastewater treatment within the District boundary;

(B) to estimate demand elasticity for each of the principal categories of end use of water within the District boundary;

(C) to quantify monthly water savings estimated to result from the various designs and policies to be evaluated; and

(D) to identify a water pricing system that reflects the incremental scarcity value of water and rewards effective water conservation programs.

(3) Pricing policies to be evaluated in the study shall include but not be limited to the following, alone and in combination:

(A) recovery of all costs, including a reasonable return on investment, through water and wastewater service charges;

(B) seasonal rate differentials;

(C) drought year surcharges;

(D) increasing block rate schedules;

(E) marginal cost pricing;

(F) rates accounting for differences in costs based upon point of delivery; and

(G) rates based on the effect of phasing out the collection of ad valorem property taxes by the District and the petitioners of project water over a five-year and ten-year period.

The District may incorporate policies developed by the study in the Water Management Improvement Plan prepared under subsection (b).

Public information.

(4) Not less than ninety days prior to its transmittal to the Secretary, the study, together with the District's preliminary conclusions and recommendations and all supporting documentation, shall be available for public review and comment, including public hearings. All significant comments, and the District's response thereto, shall accompany the study transmitted to the Secretary.

(5) Nothing in this subsection shall be deemed to authorize the Secretary, or grant new authority to the District or petitioners of project water, to require the implementation of any policies or recommendations contained in the study.

(d) STUDY OF COORDINATED OPERATIONS.—

(1) Within three years from the date of enactment of this Act, the District, after consultation with the State and each

petitioner of project water, shall prepare and transmit to the Secretary a study of the coordinated operation of independent municipal and industrial and irrigation water systems, together with its conclusions and recommendations. The District shall evaluate cost-effective flexible operating procedures that will—

(A) improve the availability and reliability of water supply;

(B) coordinate the timing of reservoir releases under existing water rights to improve instream flows for fisheries, wildlife, recreation, and other environmental values, if possible;

(C) assist in managing drought emergencies by making more efficient use of facilities;

(D) encourage the maintenance of existing wells and other facilities which may be placed on stand-by status when water deliveries from the project become available;

(E) allow for the development, protection, and sustainable use of ground-water resources in the District boundary;

(F) not reduce the benefits that would be generated in the absence of the joint operating procedures; and

(G) integrate management of surface and ground-water supplies and storage capability.

The District may incorporate measures developed by the study in the Water Management Improvement Plan prepared under subsection (b).

(2) Not less than ninety days prior to its transmittal to the Secretary, the study, together with the District's preliminary conclusions and recommendations and all supporting documentation, shall be available for public review and comment, including public hearings. All significant comments, and the District's response thereto, shall accompany the study transmitted to the Secretary. Public information.

(3) Nothing in this subsection shall be deemed to authorize the Secretary, or grant new authority to the District or petitioners of project water, to require the implementation of any operating procedures, conclusions, or recommendations contained in the study.

(e) AUTHORIZATION OF APPROPRIATIONS.—(1) For an amount not to exceed 50 percent of the cost of conducting the studies identified in subsections (c) and (d) and developing the plan identified in subsection (b), $3,000,000 shall be available from the amount authorized to be appropriated by section 201, and shall remain available until expended. The Federal share shall be allocated among project purposes in the same proportions as the joint costs of the Strawberry Collection System, and shall be repaid in the manner of repayment for each such purpose.

(2) For an amount not to exceed 65 percent of the cost of implementation of the conservation measures in accordance with subsection (b), $50,000,000 shall be available from the amount authorized to be appropriated in section 201, and shall remain available until expended. $10,000,000 authorized by this paragraph shall be made available for conservation measures in Wasatch County identified in the study pursuant to section 202(a)(3)(A) which measures satisfy the requirements of subsection (b)(2)(B) and shall thereafter be available for the purposes of this paragraph. The Federal share shall be allocated between the purposes of municipal and industrial water supply and irrigation, as appro-

priate, and shall be repaid in the manner of repayment for each such purpose.

Establishment.

(f) UTAH WATER CONSERVATION ADVISORY BOARD.—(1) Within two years of the date of enactment of this Act, the Governor of the State may establish a board consisting of nine members to be known as the Utah Water Conservation Advisory Board, with the duties described in this subsection. In the event that the Governor does not establish said board by such date, the Secretary shall establish a Utah Water Conservation Advisory Board consisting of nine members appointed by the Secretary from a list of names supplied by the Governor.

(2) The Board shall recommend water conservation standards and regulations for promulgation by State or local authorities in the service area of each petitioner of project water, including but not limited to the following:

(A) metering or measuring of water to all customers, to be accomplished within five years. (For purposes of this paragraph, residential buildings of more than four units may be considered as single customers.);

(B) elimination of declining block rate schedules from any system of water or wastewater treatment charges;

(C) a program of leak detection and repair that provides for the inspection of all conveyance and distribution mains, and the performance of repairs, at intervals of three years or less;

(D) low consumption performance standards applicable to the sale and installation of plumbing fixtures and fittings in new construction;

(E) requirements for the recycling and reuse of water by all newly constructed commercial laundries and vehicle wash facilities;

(F) requirements for soil preparation prior to the installation or seeding of turf grass in new residential and commercial construction;

(G) requirements for the insulation of hot water pipes in all new construction;

(H) requirements for the installation of water recycling or reuse systems on any newly installed commercial and industrial water-operative air conditioning and refrigeration systems;

(I) standards governing the sale, installation, and removal of self-regenerating water softeners, including the identification of public water supply system service areas where such devices are prohibited, and the establishment of standards for the control of regeneration in all newly installed devices; and

(J) elimination of evaporation as a principal method of wastewater treatment.

(3) Any water conserved by implementation of subparagraphs (A), (B), (C), (D), or (F) of paragraph (2) shall not be credited to the conservation goal specified under subparagraph (b)(1)(A). All other water conserved after January 1, 1992, by a conservation measure which is placed on the active inventory shall be credited to the conservation goal specified under subparagraph (b)(1)(A).

(4) The Governor may waive the applicability of paragraphs (2)(D) through (2)(H) above to any petitioner of project water that provides water entirely for irrigation use.

(B) Such Daniels Creek replacement water may be exchanged by the District in accordance with State law with the Strawberry basin water identified above to provide a permanent supply of water for minimum flows provided in paragraph (1). Any such permanent replacement water so exchanged into the Strawberry basin by the District shall be tendered in accordance with State law within thirty days of its exchange by the District to the Utah Division of Wildlife Resources for the purposes of providing stream flows under paragraph (1).

TITLE IV—UTAH RECLAMATION MITIGATION AND CONSERVATION ACCOUNT

SEC. 401. FINDINGS AND PURPOSE.

(a) FINDINGS.—The Congress finds that—

(1) the State of Utah is a State in which one of the largest trans-basin water diversions occurs, dewatering important natural areas as a result of the Colorado River Storage Project;

(2) the State of Utah is one of the most ecologically significant States in the Nation, and it is therefore important to protect, mitigate, and enhance sensitive species and ecosystems through effective long-term mitigation;

(3) the challenge of mitigating the environmental consequences associated with trans-basin water diversions are complex and involve many projects and measures (some of which are presently unidentifiable) and the costs for which will continue after projects of the Colorado River Storage Project in Utah are completed; and

(4) environmental mitigation associated with the development of the projects of the Colorado River Storage Project in the State of Utah are seriously in arrears.

(b) PURPOSES.—The purpose of this title is to establish an ongoing account to ensure that—

(1) the level of environmental protection, mitigation, and enhancement achieved in connection with projects identified in this Act and elsewhere in the Colorado River Storage Project in the State of Utah is preserved and maintained;

(2) resources are available to manage and maintain investments in fish and wildlife and recreation features of the projects identified in this Act and elsewhere in the Colorado River Storage Project in the State of Utah;

(3) resources are available to address known environmental impacts of the projects identified in this Act and elsewhere in the Colorado River Storage Project in the State of Utah for which no funds are being specifically authorized for appropriation and earmarked under this Act; and

(4) resources are available to address presently unknown environmental needs and opportunities for enhancement within the areas of the State of Utah affected by the projects identified in this Act and elsewhere in the Colorado River Storage Project.

SEC. 402. UTAH RECLAMATION MITIGATION AND CONSERVATION ACCOUNT.

(a) ESTABLISHMENT.—There is hereby established in the Treasury of the United States a Utah Reclamation Mitigation and Conservation Account (hereafter in this title referred to as the

"Account"). Amounts in the Account shall be available for the purposes set forth in section 401(b).

(b) DEPOSITS INTO THE ACCOUNT.—Amounts shall be deposited into the Account as follows:

(1) STATE CONTRIBUTIONS.—In each of fiscal years 1994 through 2001, or until the fiscal year in which the project is declared substantially complete, whichever occurs first, a voluntary contribution of $3,000,000 from the State of Utah.

(2) FEDERAL CONTRIBUTIONS.—In each of fiscal years 1994 through 2001, or until the fiscal year in which the project is declared substantially complete, whichever occurs first, $5,000,000 from amounts authorized to be appropriated by section 201, which shall be treated as an expense under section 8.

(3) CONTRIBUTIONS FROM PROJECT BENEFICIARIES.—(A) In each of fiscal years 1994 through 2001, or until the fiscal year in which the project is declared substantially complete in accordance with this Act, whichever occurs first, $750,000 in non-Federal funds from the District.

(B) $5,000,000 annually by the Secretary of Energy out of funds appropriated to the Western Area Power Administration, such expenditures to be considered nonreimbursable and nonreturnable.

(C) The annual contributions described in subparagraphs (A) and (B) shall be increased proportionally on March 1 of each year by the same percentage increase during the previous calendar year in the Consumer Price Index for urban consumers, published by the Department of Labor.

(4) INTEREST AND UNEXPENDED FUNDS.—(A) Any amount authorized and earmarked for fish, wildlife, or recreation expenditures which is appropriated but not obligated or expended by the Commission upon its termination under section 301.

(B) All funds annually appropriated to the Secretary for the Commission.

(C) All interest earned on amounts in the Account.

(D) Amounts not obligated or expended after the completion of a construction project and available pursuant to section 301(j).

(c) OPERATION OF THE ACCOUNT.—(1) All funds deposited as principal in the Account shall earn interest in the amount determined by the Secretary of the Treasury on the basis of the current average market yield on outstanding marketable obligations of the United States of comparable maturities. Such interest shall be added to the principal of the Account until completion of the projects and features specified in the schedule in section 315. After completion of such projects and features, all interest earned on amounts remaining in or deposited to the principal of the Account shall be available to the Commission pursuant to subsection (c)(2) of this section.

(2) The Commission is authorized to administer and expend without further authorization and appropriation by Congress all sums deposited into the Account pursuant to subsections (b)(4)(D), (b)(3)(A), and (b)(3)(B), as well as interest not deposited to the principal of the Account pursuant to paragraph (1) of this subsection. The Commission may elect to deposit funds not expended

under subsections (b)(4)(D), (b)(3)(A), and (b)(3)(B) into the Account as principal.

(3) All amounts deposited in the Account pursuant to subsections (b) (1) and (2), and any amount deposited as principal under paragraphs (c)(1) and (c)(2), shall constitute the principal of the Account. No part of the principal amount may be expended for any purpose.

(d) ADMINISTRATION BY THE UTAH DIVISION OF WILDLIFE RESOURCES.—(1) After the date on which the Commission terminates under section 301, the Utah Division of Wildlife Resources or its successor shall receive—

(A) all amounts contributed annually to the Account pursuant to section 402(b)(3)(B); and

(B) all interest on the principal of the Account, at the beginning of each year. The portion of the interest earned on the principal of the Account that exceeds the amount required to increase the principal of the Account proportionally on March 1 of each year by the percentage increase during the previous calendar year in the Consumer Price Index for urban consumers published by the Department of Labor, shall be available for expenditure by the Division in accordance with this section.

(2) The funds received by the Utah Division of Wildlife Resources under paragraph (1) shall be expended in a manner that fulfills the purposes of the Account established under this Act, in consultation with and pursuant to, a conservation plan and amendments thereto to be developed by the Utah Division of Wildlife Resources, in cooperation with the United States Forest Service, the Bureau of Land Management of the Department of the Interior, and the United States Fish and Wildlife Service.

(3) The funds to be distributed from the Account shall not be applied as a substitute for funding which would otherwise be provided or available to the Utah Division of Wildlife Resources.

(e) AUDIT BY INSPECTOR GENERAL.—The financial management of the Account shall be subject to audit by the Inspector General of the Department of the Interior.

TITLE V—UTE INDIAN RIGHTS SETTLEMENT

SEC. 501. FINDINGS.

(a) FINDINGS.—The Congress finds the following—

(1) the unquantified Federal reserved water rights of the Ute Indian Tribe are the subject of existing claims and prospective lawsuits involving the United States, the State, and the District and numerous other water users in the Uinta Basin. The State and the Tribe negotiated, but did not implement, a compact to quantify the Tribe's reserved water rights.

(2) There are other unresolved Tribal claims arising out of an agreement dated September 20, 1965, where the Tribe deferred development of a portion of its reserved water rights for 15,242 acres of the Tribe's Group 5 Lands in order to facilitate the construction of the Bonneville Unit of the Central Utah Project. In exchange the United States undertook to develop substitute water for the benefit of the Tribe.

(3) It was intended that the Central Utah Project, through construction of the Upalco and Uintah Units (Initial Phase) and the Ute Indian Unit (Ultimate Phase) would provide water

for growth in the Uinta Basin and for late season irrigation for both the Indians and non-Indian water users. However, construction of the Upalco and Uintah Units has not been undertaken, in part because the Bureau was unable to find adequate and economically feasible reservoir sites. The Ute Indian Unit has not been authorized by Congress, and there is no present intent to proceed with Ultimate Phase construction.

(4) Without the implementation of the plans to construct additional storage in the Uinta Basin, the water users (both Indian and non-Indian) continue to suffer water shortages and resulting economic decline.

(b) PURPOSE.—This Act and the proposed Revised Ute Indian Compact of 1990 are intended to—

(1) quantify the Tribe's reserved water rights;

(2) allow increased beneficial use of such water; and

(3) put the Tribe in the same economic position it would have enjoyed had the features contemplated by the September 20, 1965 Agreement been constructed.

SEC. 502. PROVISIONS FOR PAYMENT TO THE UTE INDIAN TRIBE.

(a) BONNEVILLE UNIT TRIBAL CREDITS.—(1) Commencing one year after the date of enactment of this Act, and continuing for fifty years, the Tribe shall receive from the United States 26 percent of the annual Bonneville Unit municipal and industrial capital repayment obligation attributable to thirty-five thousand five hundred acre-feet of water, which represents a portion of the Tribe's water rights that were to be supplied by storage from the Central Utah Project, but will not be supplied because the Upalco and Uintah units are not to be constructed.

(2)(A) Commencing in the year 2042, the Tribe shall collect from the District 7 percent of the then fair market value of thirty-five thousand five hundred acre-feet of Bonneville Unit agricultural water which has been converted to municipal and industrial water. The fair market value of such water shall be recalculated every five years.

(B) In the event thirty-five thousand five hundred acre-feet of Bonneville Unit converted agricultural water to municipal and industrial have not yet been marketed as of the year 2042, the Tribe shall receive 7 percent of the fair market value of the first thirty-five thousand five hundred acre-feet of such water converted to municipal and industrial water. The monies received by the Tribe under this title shall be utilized by the Tribe for governmental purposes, shall not be distributed per capita, and shall be used to enhance the educational, social, and economic opportunities for the Tribe.

(b) BONNEVILLE UNIT TRIBAL WATERS.—The Secretary is authorized to make any unused capacity in the Bonneville Unit Strawberry Aqueduct and Collection System diversion facilities available for use by the Tribe. Unused capacity shall constitute capacity, only as available, in excess of the needs of the District for delivery of Bonneville Unit water and for satisfaction of minimum streamflow obligations established by this Act. In the event that the Tribe elects to place water in these components of the Bonneville Unit system, the Secretary and District shall only impose an operation and maintenance charge. Such charge shall commence at the time of the Tribe's use of such facilities. The operation

and maintenance charge shall be prorated on a per acre-foot basis, but shall only include the operation and maintenance costs of facilities used by the Tribe and shall only apply when the Tribe elects to use the facilities. As provided in the Ute Indian Compact, transfers of certain Indian reserved rights water to different lands or different uses will be made in accordance with the laws of the State of Utah governing change or exchange applications.

(c) ELECTION TO RETURN TRIBAL WATERS.—Notwithstanding the authorization provided for in subparagraph (b), the Tribe may at any time elect to return all or a portion of the water which it delivered under subparagraph (b) for use in the Uinta Basin. Any such Uinta Basin use shall protect the rights of non-Indian water users existing at the time of the election. Upon such election, the Tribe will relinquish any and all rights which it may have acquired to transport such water through the Bonneville Unit facilities.

SEC. 503. TRIBAL USE OF WATER.

(a) RATIFICATION OF REVISED UTE INDIAN COMPACT.—The Revised Ute Indian Compact of 1990, dated October 1, 1990, reserving waters to the Ute Indian Tribe and establishing the uses and management of such Tribal waters, is hereby ratified and approved, subject to re-ratification by the State and the Tribe. The Secretary is authorized to take all actions necessary to implement the Compact.

(b) THE INDIAN INTERCOURSE ACT.—The provisions of section 2116 of the Revised Statutes (25 U.S.C. 177) shall not apply to any water rights confirmed in the Compact. Nothing in this subsection shall be considered to amend, construe, supersede or preempt any State law, Federal law, interstate compact or international treaty that pertains to the Colorado River or its tributaries, including the appropriation, use, development and storage, regulation, allocation, conservation, exportation or quality of those waters.

(c) RESTRICTION ON DISPOSAL OF WATERS INTO THE LOWER COLORADO RIVER BASIN.—None of the waters secured to the Tribe in the Revised Ute Indian Compact of 1990 may be sold, exchanged, leased, used, or otherwise disposed of into or in the Lower Colorado River Basin, below Lees Ferry, unless water rights within the Upper Colorado River Basin in the State of Utah held by non-Federal, non-Indian users could be so sold, exchanged, leased, used, or otherwise disposed of under Utah State law, Federal law, interstate compacts, or international treaty pursuant to a final, non-appealable order of a Federal court or pursuant to an agreement of the seven States signatory to the Colorado River Compact; *Provided, however,* That in no event shall such transfer of Indian water rights take place without the filing and approval of the appropriate applications with the Utah State Engineer pursuant to Utah State law.

(d) USE OF WATER RIGHTS.—The use of the rights referred to in subsection (a) within the State of Utah shall be governed solely as provided in this section and the Revised Compact referred to in section 503(a). The Tribe may voluntarily elect to sell, exchange, lease, use, or otherwise dispose of any portion of a water right confirmed in the Revised Compact off the Uintah and Ouray Indian Reservation. If the Tribe so elects, and as a condition precedent to such sale, exchange, lease, use, or other disposition, that portion of the Tribe's water right shall be changed to a State

water right, but shall be such a State water right only during the use of that right off the reservation, and shall be fully subject to State laws, Federal laws, interstate compacts, and international treaties applicable to the Colorado River and its tributaries, including the appropriation, use, development, storage, regulation, allocation, conservation, exportation, or quality of those waters.

(e) RULES OF CONSTRUCTION.—Nothing in titles II through VI of this Act or in the Revised Ute Indian Compact of 1990 shall—

(1) constitute authority for the sale, exchange, lease, use, or other disposal of any Federal reserved water right off the reservation;

(2) constitute authority for the sale, exchange, lease, use, or other disposal of any Tribal water right outside the State of Utah; or

(3) be deemed a congressional determination that any holders of water rights do or do not have authority under existing law to sell, exchange, lease, use, or otherwise dispose of such water or water rights outside the State of Utah.

SEC. 504. TRIBAL FARMING OPERATIONS.

Of the amounts authorized to be appropriated by section 501, $45,000,000 is authorized for the Secretary to permit the Tribe to develop over a three-year period—

(1) a seven thousand five hundred acre farming/feed lot operation equipped with satisfactory off-farm and on-farm water facilities out of tribally-owned lands and adjoining non-Indian lands now served by the Uintah Indian Irrigation Project;

(2) a plan to reduce the Tribe's expense on the remaining sixteen thousand acres of tribal land now served by the Uintah Indian Irrigation Project; and

(3) a fund to permit tribal members to upgrade their individual farming operations.

Any non-Indian lands acquired under this section shall be acquired from willing sellers and shall not be added to the reservation of the Tribe.

SEC. 505. RESERVOIR, STREAM, HABITAT AND ROAD IMPROVEMENTS WITH RESPECT TO THE UTE INDIAN RESERVATION.

(a) REPAIR OF CEDARVIEW RESERVOIR.—Of the amount authorized to be appropriated by section 201, $5,000,000 shall be available to the Secretary, in cooperation with the Tribe, to repair the leak in Cedarview Reservoir in Dark Canyon, Duchesne County, Utah, so that the resultant surface area of the reservoir is two hundred and ten acres.

(b) RESERVATION STREAM IMPROVEMENTS.—Of the amount authorized to be appropriated by section 201, $10,000,000 shall be available for the Secretary, in cooperation with the Tribe and in consultation with the Commission, to undertake stream improvements to not less than 53 linear miles (not counting meanders) for the Pole Creek, Rock Creek, Yellowstone River, Lake Fork River, Uinta River, and Whiterocks River, in the State of Utah. Nothing in this authorization shall increase the obligation of the District to deliver more than 44,400 acre-feet of Central Utah Project water as its contribution to the preservation of minimum stream flows in the Uinta Basin.

(c) BOTTLE HOLLOW RESERVOIR.—Of the amount authorized to be appropriated by section 201, $500,000 in an initial appropriation shall be available to permit the Secretary to clean the Bottle

Hollow Reservoir on the Ute Indian Reservation of debris and trash resulting from a submerged sanitary landfill, to remove all non-game fish, and to secure minimum flow of water to the reservoir to make it a suitable habitat for a cold water fishery. The United States, and not the Tribe, shall be responsible for cleanup and all other responsibilities relating to the presently contaminated Bottle Hollow waters.

(d) MINIMUM STREAM FLOWS.—As a minimum, the Secretary shall endeavor to maintain continuous releases into Rock Creek to maintain twenty-nine cubic feet per second during May through October and continuous releases into Rock Creek of twenty-three cubic feet per second during November through April, at the reservation boundary. Nothing in this authorization shall increase the obligation of the District to deliver more than forty-four thousand four hundred acre-feet of Central Utah Project water as its contribution to the preservation of minimum stream flow in the Uinta Basin.

(e) LAND TRANSFER.—The Bureau shall transfer 315 acres of land to the Forest Service, located at the proposed site of the Lower Stillwater Reservoir as a wildlife mitigation measure.

(f) RECREATION ENHANCEMENT.—Of the amount authorized to be appropriated by section 201, $10,000,000 shall be available for the Secretary, in cooperation with the Tribe, to permit the Tribe to develop, after consultation with the appropriate fish, wildlife, and recreation agencies, big game hunting, fisheries, campgrounds and fish and wildlife management facilities, including administration buildings and grounds on the Uintah and Ouray Reservation, in lieu of the construction of the Lower Stillwater Dam and related facilities.

(g) MUNICIPAL WATER CONVEYANCE SYSTEM.—Of the amounts authorized to be appropriated in section 201, $3,000,000 shall be available to the Secretary for participation by the Tribe in the construction of pipelines associated with the Duchesne County Municipal Water Conveyance System.

SEC. 506. TRIBAL DEVELOPMENT FUNDS.

(a) ESTABLISHMENT.—Of the amount authorized to be appropriated by section 201, there is hereby established to be appropriated a total amount of $125,000,000 to be paid in three annual and equal installments to the Tribal Development Fund which the Secretary is authorized and directed to establish for the Tribe.

(b) ADJUSTMENT.—To the extent that any portion of such amount is contributed after the period described above or in amounts less than described above, the Tribe shall, subject to appropriation Acts, receive, in addition to the full contribution to the Tribal Development Fund, an adjustment representing the interest income as determined by the Secretary, in his sole discretion, that would have been earned on any unpaid amount.

(c) TRIBAL DEVELOPMENT.—The Tribe shall prepare a Tribal Development Plan for all or a part of this Tribal Development Fund. Such Tribal Development Plan shall set forth from time to time economic projects proposed by the Tribe which in the opinion of two independent financial consultants are deemed to be reasonable, prudent and likely to return a reasonable investment to the Tribe. The financial consultants shall be selected by the Tribe with the advice and consent of the Secretary. Principal from the Tribal Development Fund shall be permitted to be expended only

in those cases where the Tribal Development Plan can demonstrate with specificity a compelling need to utilize principal in addition to income for the Tribal Development Plan.

(d) No funds from the Tribal Development Fund shall be obligated or expended by the Secretary for any economic project to be developed or constructed pursuant to subsection (c) of this section, unless the Secretary has complied fully with the requirements of applicable fish, wildlife, recreation, and environmental laws, including the National Environmental Policy Act of 1969 (43 U.S.C. 4321 et seq.).

SEC. 507. WAIVER OF CLAIMS.

(a) GENERAL AUTHORITY.—The Tribe is authorized to waive and release claims concerning or related to water rights as described below.

(b) DESCRIPTION OF CLAIMS.—The Tribe shall waive, upon receipt of the section 504, 505, and 506 moneys, any and all claims relating to its water rights covered under the agreement of September 20, 1965, including claims by the Tribe that it retains the right to develop lands as set forth in the Ute Indian Compact and deferred in such agreement. Nothing in this waiver of claims shall prevent the Tribe from enforcing rights granted to it under this Act or under the Compact. To the extent necessary to effect a complete release of the claims, the United States concurs in such release.

(c) RESURRECTION OF CLAIMS.—In the event the Tribe does not receive on a timely basis the moneys described in section 502, the Tribe is authorized to bring an action for an accounting against the United States, if applicable, in the United States Claims Court for moneys owed plus interest at 10 percent, and against the District, if applicable, in the United States District Court for the District of Utah for moneys owed plus interest at 10 percent. The United States and the District waive any defense based upon sovereign immunity in such proceedings.

TITLE VI—ENDANGERED SPECIES ACT AND NATIONAL ENVIRONMENTAL POLICY ACT

Notwithstanding any provision of titles II through V of this Act, nothing in such titles shall be interpreted as modifying or amending the provisions of the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.) or the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

TITLE VII—LEADVILLE MINE DRAINAGE TUNNEL, COLORADO

SEC. 701. AUTHORIZATION.

The Secretary is authorized to construct, operate, and maintain a water treatment plant, including the disposal of sludge produced by said treatment plant as appropriate, and to install concrete lining on the rehabilitated portion of the Leadville Mine Drainage Tunnel, in order that water flowing from the Leadville Tunnel may meet water quality standards, and to contract with the Colorado Division of Wildlife to monitor concentrations of heavy metal contaminants in water, stream sediment, and aquatic life in the Arkansas River downstream of the water treatment plant.

SEC. 702. COSTS NONREIMBURSABLE.

Construction, operation, and maintenance costs of the works authorized by this title shall be nonreimbursable.

SEC. 703. OPERATION AND MAINTENANCE.

The Secretary shall be responsible for operation and maintenance of the water treatment plant, including sludge disposal authorized by this title. The Secretary may contract for these services.

SEC. 704. APPROPRIATIONS AUTHORIZED.

There is hereby authorized to be appropriated beginning October 1, 1989, for construction of a water treatment plant for water flowing from the Leadville Mine Drainage Tunnel, including sludge disposal, and concrete lining the rehabilitated portion of the tunnel, the sum of $10,700,000 (October 1988 price levels), plus or minus such amounts, if any, as may be required by reason of ordinary fluctuations in construction costs as indicated by engineering cost indexes applicable to the types of construction involved herein and, in addition thereto, such sums as may be required for operation and maintenance of the works authorized by this title, including but not limited to $1,250,000 which shall be for a program to be conducted by the Colorado Division of Wildlife to monitor heavy metal concentrations in water, stream sediment, and aquatic life in the Arkansas River.

SEC. 705. LIMITATION.

The treatment plant authorized by this title shall be designed and constructed to treat the quantity and quality of effluent historically discharged from the Leadville Mine Drainage Tunnel.

SEC. 706. DESIGN AND OPERATION NOTIFICATION.

Prior to the initiation of construction and during construction of the works authorized by section 701, the Secretary shall submit the plans for design and operation of the works to the Administrator of the Environmental Protection Agency and the State of Colorado to obtain their views on the design and operation plans. After such review and consultation, the Secretary shall notify the President pro tempore of the Senate and the Speaker of the House of Representatives that the discharge from the works to be constructed will meet the requirements set forth in Federal Facilities Compliance Agreement Number FFCA 89–1, entered into by the Bureau of Reclamation and the Environmental Protection Agency on February 7, 1989, and in National Pollutant Discharge Elimination System permit Number CO 0021717 issued to the Bureau of Reclamation in 1975 and reissued in 1979 and 1981.

SEC. 707. FISH AND WILDLIFE RESTORATION.

(a) The Secretary is authorized, in consultation with the State of Colorado, to formulate and implement, subject to the terms of subsection (b) of this section, a program for the restoration of fish and wildlife resources of those portions of the Arkansas River basin impacted by the effluent discharged from the Leadville Mine Drainage Tunnel. The formulation of the program shall be undertaken with appropriate public consultation.

(b) Prior to implementing the fish and wildlife restoration program, the Secretary shall submit a copy of the proposed restoration program to the President pro tempore of the Senate and the Speaker

of the House of Representatives for a period of not less than sixty days.

SEC. 708. WATER QUALITY RESTORATION.

(a) The Secretary is authorized, in consultation with the State of Colorado, the Administrator of the Environmental Protection Agency, and other Federal entities, to conduct investigations of water pollution sources and impacts attributed to mining-related and other development in the Upper Arkansas River basin, to develop corrective action plans, and to implement corrective action demonstration projects. Neither the Secretary nor any person participating in a corrective action demonstration project shall be liable under section 107 of the Comprehensive Environmental Response, Compensation, and Liability Act for costs or damages as a result of actions taken or omitted in the course of implementing an approved work plan developed under this section; *Provided,* That this subsection shall not preclude liability for costs or damages which result from negligence on the part of such persons. The Secretary shall have no authority under this section at facilities which have been listed or proposed for listing on the National Priorities List, or are subject to or covered by the Resource Conservation and Recovery Act. For the purpose of this section, the term "Upper Arkansas River basin" means the Arkansas River hydrologic basin in Colorado extending from Pueblo Dam upstream to its headwaters.

(b) The development of all corrective action plans and subsequent corrective action demonstration projects shall be undertaken with appropriate public involvement pursuant to a public participation plan, consistent with regulations promulgated under the Federal Water Pollution Control Act, developed by the Secretary in consultation with the State of Colorado and the Administrator of the Environmental Protection Agency.

(c) The Secretary shall arrange for cost sharing with the State of Colorado and for the use of non-Federal funds and in-kind services where possible. The Secretary is authorized to fund all State costs required to conduct investigations and develop corrective action plans. The Federal share of costs associated with corrective action plans shall not exceed 60 percent.

(d) Prior to implementing any corrective action demonstration project, the Secretary shall submit a copy of the proposed project plans to the President pro tempore of the Senate and the Speaker of the House of Representatives.

(e) Nothing in this title shall affect or modify in any way the obligations or liabilities of any person under other Federal or State law, including common law, with respect to the discharge or release of hazardous substances, pollutants, or contaminants, as defined under section 101 of the Comprehensive Environmental Response, Compensation, and Liability Act.

(f) There is authorized to be appropriated such sums as may be required to fulfill the provisions of sections 707 and 708 of this title. Appropriation authorization.

TITLE VIII—LAKE MEREDITH SALINITY CONTROL PROJECT, TEXAS AND NEW MEXICO

The Lake Andes-Wagner Unit shall include on-farm pumps, irrigation sprinkler systems, and other on-farm facilities necessary for the irrigation of not to exceed approximately 1,700 acres of Indian-owned lands. The use of electric power and energy

required to operate the facilities for the irrigation of such Indian-owned lands and to provide pressurization for such Indian-owned lands shall be considered to be a project use.

(b) The Marty II Unit shall include a river pump, irrigation distribution system, booster pumps, irrigation sprinkler systems, farm and project drains, electrical distribution facilities, and the pressurization to irrigate not more than approximately three thousand acres of Indian-owned land in the Yankton-Sioux Indian Reservation, substantially as provided in the final report for the Marty II Unit prepared pursuant to section 2003 of this title.

(c) The construction costs of the Lake Andes-Wagner Unit allocated to irrigation of non-Indian owned lands (both those assigned for return by the water users and those assigned for return from power revenues of the Pick-Sloan Missouri Basin Program) shall be repaid no later than forty years following a determination by the Secretary that the project is substantially complete. Repayment of the construction costs of the Lake Andes-Wagner Unit apportioned to serving Indian-owned lands and of the Marty II Unit allocated to irrigation shall be governed by the Act of July 1, 1932 (47 Stat. 564, Chapter 369; 25 U.S.C. 386a).

For any successor programs established for crop years subsequent to 1995, the acreage and yield on which any program payments are based shall be determined without taking into consideration any increase in acreage or yield resulting from the construction and operation of the Units.

(f) Mitigation of fish and wildlife losses incurred as a result of the construction and operation of the facilities authorized by this section shall be concurrent with the construction of the Unit involved and shall be on an acre-for-acre basis, based on ecological equivalency. In addition to the fish and wildlife enhancement to be provided by the fish rearing pond of the Lake Andes Unit, other facilities of that Unit may be utilized to provide fish and wildlife benefits beyond the mitigation required to the extent that such benefits may be provided without increasing costs of construction, operation, maintenance or replacement allocable to irrigation or impairing the efficiency of that Unit for irrigation purposes.

TITLE XXIII—PLATORO RESERVOIR AND DAM, SAN LUIS VALLEY PROJECT, COLORADO

SEC. 2301. FINDINGS AND DECLARATIONS.

The Congress finds that and declares the following:

(1) Platoro Dam and Reservoir of the Platoro Unit of the Conejos Division of the San Luis Valley Project was built in 1951 and for all practical purposes has not been usable because of the constraints imposed by the Rio Grande Compact of 1939 on the use of the Rio Grande River among the States of Colorado, New Mexico, and Texas.

(2) The usefulness of Platoro Reservoir under future compact compliance depends upon the careful conservation and wise management of water and requires the operation of the reservoir project in conjunction with privately owned water rights of the local water users.

(3) It is in the best interest of the people of the United States to—

(A) transfer operation, maintenance, and replacement responsibility for the Platoro Dam and Reservoir to the Conejos Water Conservancy District of the State of Colorado, which is the local water user district with repayment responsibility to the United States, and the local representative of the water users with privately owned water rights;

(B) relieve the people of the United States from further risk or obligation in connection with the collection of construction charge repayments and annual operation and maintenance payments for the Platoro Dam and Reservoir by providing for payment of a one-time fee to the United States in lieu of the scheduled annual payments and termination of any further repayment obligation to the United States and the District (Contract Number I1r–1529, as amended); and

(C) determine such one-time fee, taking into account the assumption by the District of all of the operations and maintenance costs associated with the reservoir, including the existing Federal obligation for the operation and maintenance of the reservoir for flood control purposes, and maintaining a minimum stream flow as provided in section 2302(d) of this title.

SEC. 2302. TRANSFER OF OPERATION AND MAINTENANCE RESPONSIBILITY OF PLATORO RESERVOIR.

(a) IN GENERAL.—The Secretary is authorized and directed to undertake the following:

(1) Accept a one-time payment of $450,000 from the district in lieu of the repayment obligation of paragraphs 8(d) and 11 of the Repayment Contract between the United States and the District (Number I1r–1529) as amended.

(2) Enter into an agreement for the transfer of all of the operation and maintenance functions of the Platoro Dam and Reservoir, including the operation and maintenance of the reservoir for flood control purposes, to the District. The agreement shall provide—

(A) that the District will have the exclusive responsibility for operations and the sole obligation for all of the maintenance of the reservoir in a satisfactory condition for the life of the reservoir subject to review of such maintenance by the Secretary to ensure compliance with reasonable operation, maintenance and dam safety requirements as they apply to Platoro Dam, and Reservoir under Federal and State law; and,

(B) that the District shall have the exclusive use and sole responsibility for maintenance of all associated facilities, including outlet works, remote control equipment, spillway, and land and buildings in the Platoro townsite. The District shall have sole responsibility for maintaining the land and buildings in a condition satisfactory to the United States Forest Service.

(b) TITLE.—Title to the Platoro Dam and Reservoir and all associated facilities shall remain with the United States, and authority to make recreational use of Platoro Dam and Reservoir shall be under the control and supervision of the United States Forest Service, Department of Agriculture.

(c) AMENDMENTS TO CONTRACT.—The Secretary is authorized to enter into such other amendments to such contract Number I1r–1529, as amended, necessary to facilitate the intended operations of the project by the District. All applicable provisions of the Federal reclamation laws shall remain in effect with respect to such contract.

(d) CONDITIONS IMPOSED UPON THE DISTRICT.—The transfer of operation and maintenance responsibility under subsection (a) shall be subject to the following conditions:

(1)(A) The district will, after consultation with the United States Forest Service, Department of Agriculture, operate the Platoro Dam and Reservoir in such a way as to provide—

(i) that releases of bypass from the reservoir flush out the channel of the Conejos River periodically in the spring or early summer to maintain the hydrologic regime of the river; and

(ii) that any releases from the reservoir contribute to even flows in the river as far as possible from October 1 to December 1 so as to be sensitive to the brown trout spawn.

(B) Operation of the Platoro Dam and Reservoir by the District for water supply uses (including storage and exchange of water rights owned by the District or its constituents), interstate compact and flood control purposes shall be senior and paramount to the channel flushing and fishery objectives referred to in subparagraph (A).

(2) The District will provide and maintain a permanent pool in the Platoro Reservoir for fish, wildlife, and recreation purposes, in the amount of three thousand acre-feet, including the initial filling of the pool and periodic replenishment of seepage and evaporation loss: *Provided, however,* That if necessary to maintain the winter instream flow provided in subparagraph (3), the permanent pool may be allowed to be reduced to two thousand four hundred acre-feet.

(3) In order to preserve fish and wildlife habitat below Platoro Reservoir, the District shall maintain releases of water from Platoro Reservoir of seven cubic feet per second during the months of October through April and shall bypass forty cubic feet per second or natural inflow, whichever is less, during the months of May through September.

(4) The United States Forest Service, Department of Agriculture, is directed to regularly monitor operation of Platoro Reservoir, including releases from it for instream flow purposes, and to enforce the provisions of this subsection under the laws, regulations, and rules applicable to the National Forest System.

(e) FLOOD CONTROL MANAGEMENT.—The Secretary of the Army, acting through the Chief of Engineers, shall retain exclusive authority over Platoro Dam and Reservoir for flood control purposes and shall direct the District in the operation of the dam for such purposes. To the extent possible, management by the Secretary of the Army under this subsection shall be consistent with the water supply use of the reservoir, with the administration of the Rio Grande Compact of 1939 by the Colorado State Engineer and with the provisions of subsection (d) hereof. The Secretary of the Army shall enter into a Letter of Understanding with the District and the United States Bureau of Reclamation prior to transfer of operations which details the responsibility of each party and specifies the flood control criteria for the reservoir.

(f) COMPLIANCE WITH COMPACT AND OTHER LAWS.—The transfer under section 2302 shall be subject to the District's compliance with the Rio Grande Compact of 1939 and all other applicable laws and regulations, whether of the State of Colorado or of the United States.

TITLE XXVIII—RECLAMATION RECREATION MANAGEMENT ACT

Reclamation Recreation Management Act of 1992.
16 USC 460*l*-31 note.

SEC. 2801. SHORT TITLE.

This title may be cited as the "Reclamation Recreation Management Act of 1992".

16 USC 460*l*-31.

SEC. 2802. FINDINGS.

The Congress finds and declares the following:

(1) There is a Federal responsibility to provide opportunities for public recreation at Federal water projects.

(2) Some provisions of the Federal Water Project Recreation Act are outdated because of increases in demand for outdoor recreation and changes in the economic climate for recreation managing entities.

(3) Provisions of such Act relating to non-Federal responsibility for all costs of operation, maintenance, and replacement of recreation facilities result in an unfair burden, especially in cases where the facilities are old or underdesigned.

(4) Provisions of such Act that limit the Federal share of recreation facility development at water projects completed before 1965 to $100,000 preclude a responsible Federal share in providing adequate opportunities for safe outdoor recreation.

(5) There should be Federal authority to expand existing recreation facilities to meet public demand, in partnership with non-Federal interests.

(6) Nothing in this title changes the responsibility of the Bureau to meet the purposes for which Federal Reclamation projects were initially authorized and constructed.

(7) It is therefore in the best interest of the people of this Nation to amend the Federal Water Project Recreation Act to remove outdated restrictions and authorize the Secretary of the Interior to undertake specific measures for the management of Reclamation lands.

SEC. 2803. DEFINITIONS. 16 USC 460*l*–32.

For the purposes of this title:

(1) The term "Reclamation lands" means real property administered by the Secretary, acting through the Commissioner of Reclamation, and includes all acquired and withdrawn lands and water areas under jurisdiction of the Bureau.

(2) The term "Reclamation program" means any activity authorized under the Federal reclamation laws (the Act of June 17, 1902 (32 Stat. 388, chapter 1093; 43 U.S.C. 371)), and Acts supplementary thereto and amendatory thereof).

(3) The term "Reclamation project" means any water supply or water delivery project constructed or administered by the Bureau of Reclamation under the Federal reclamation laws (the Act of June 17, 1902 (32 Stat. 388, chapter 1093; 43 U.S.C. 371), and Acts supplementary thereto and amendatory thereof).

(4) The term "Secretary" means the Secretary of the Interior.

SEC. 2804. AMENDMENTS TO THE FEDERAL WATER PROJECT RECREATION ACT.

(a) ALLOCATION OF COSTS.—Section 2(a) of the Federal Water Project Recreation Act (16 U.S.C. 460l–13(a)) is amended, in the matter preceding paragraph (1), by striking "all the costs of operation, maintenance, and replacement" and inserting "not less than one-half the costs of operation, maintenance, and replacement".

(b) RECREATION AND FISH AND WILDLIFE ENHANCEMENT.—Section 3(b)(1) of the Federal Water Project Recreation Act (16 U.S.C. 460l–14(b)(1)) is amended—

(c) LEASE OF FACILITIES.—Section 4 of the Federal Water Project Recreation Act (16 U.S.C. 460l–15) is amended by striking "costs of operation, maintenance, and replacement of existing" and inserting "not less than one-half the costs of operation, maintenance, and replacement of existing".

(d) EXPANSION OR MODIFICATION OF EXISTING FACILITIES.—Section 3 of the Federal Water Project Recreation Act (16 U.S.C. 460l–14) is amended by adding at the end the following new subsection:

"(c)(1) Any recreation facility constructed under this Act may be expanded or modified if—

"(A) the facility is inadequate to meet recreational demands; and

"(B) a non-Federal public body executes an agreement which provides that such public body—

"(i) will administer the expanded or modified facilities pursuant to a plan for development for the project that

is approved by the agency with administrative jurisdiction over the project; and

"(ii) will bear not less than one-half of the planning and capital costs of such expansion or modification and not less than one-half of the costs of the operation, maintenance, and replacement attributable to the expansion of the facility.

"(2) The Federal share of the cost of expanding or modifying a recreational facility described in paragraph (1) may not exceed 50 percent of the total cost of expanding or modifying the facility.".

(e) LIMITATION.—Section 7(a) of the Federal Water Project Recreation Act (16 U.S.C. 460l–18(a)) is amended—

(1) by striking "purposes: *Provided,*" and all that follows through the end of the sentence and inserting "purposes"; and

TITLE XXX—WESTERN WATER POLICY REVIEW

Western Water Policy Review Act of 1992. 43 USC 371 note.

SEC. 3001. SHORT TITLE.

This title may be cited as the "Western Water Policy Review Act of 1992."

SEC. 3002. CONGRESSIONAL FINDINGS.

The Congress finds that—

(1) the Nation needs an adequate water supply for all states at a reasonable cost;

(2) the demands on the Nation's finite water supply are increasing;

(3) coordination on both the Federal level and the local level is needed to achieve water policy objectives;

(4) not less than fourteen agencies of the Federal Government are currently charged with functions relating to the oversight of water policy;

(5) the diverse authority over Federal water policy has resulted in unclear goals and an inefficient handling of the Nation's water policy;

(6) the conflict between competing goals and objectives by Federal, State, and local agencies as well as by private water users is particularly acute in the nineteen Western States which have arid climates which include the seventeen reclamation States, Hawaii, and Alaska;

(7) the appropriations doctrine of water allocation which characterizes most western water management regimes varies from State to State, and results in many instances in increased competition for limited resources;

(8) the Federal Government has recognized and continues to recognize the primary jurisdiction of the several States over the allocation, priority, and use of water resources of the States, except to the extent such jurisdiction has been preempted in whole or in part by the Federal Government, including, but not limited to, express or implied Federal reserved water rights either for itself or for the benefit of Indian Tribes, and that the Federal Government will, in exercising its authorities, comply with applicable State laws;

(9) the Federal Government recognizes its trust responsibilities to protect Indian water rights and assist Tribes in the wise use of those resources;

(10) Federal agencies, such as the Bureau of Reclamation, have had, and will continue to have major responsibilities in assisting States in the wise management and allocation of scarce water resources; and

(11) the Secretary of the Interior, given his responsibilities for management of public land, trust responsibilities for Indians, administration of the reclamation program, investigations and reviews into ground water resources through the Geologic Survey, and the Secretary of the Army, given his responsibilities for flood control, water supply, hydroelectric power, recreation, and fish and wildlife enhancement, have the resources to assist in a comprehensive review, in consultation with appropriate officials from the nineteen Western States, into the problems and potential solutions facing the nineteen Western States and the Federal Government in the increasing competition for the scarce water resources of the Western States.

SEC. 3003. PRESIDENTIAL REVIEW.

Reports.

(a) The President is directed to undertake a comprehensive review of Federal activities in the nineteen Western States which directly or indirectly affect the allocation and use of water resources,

whether surface or subsurface, and to submit a report on the President's findings, together with recommendations, if any, to the Committees on Energy and Natural Resources, Environment and Public Works and Appropriations of the Senate and the Committees on Interior and Insular Affairs, Public Works and Transportation, Merchant Marine and Fisheries and Appropriations of the House of Representatives.

(b) Such report shall be submitted within three years from the date of enactment of this Act.

(3) at least one hundred and twenty days shall have passed after the Secretary provides a report to the Committee on Energy and Natural Resources of the Senate and the Committee on Interior and Insular Affairs and the Committee on Merchant Marine and Fisheries of the House of Representatives explaining the obligations, if any, of the Central Valley Project system, including its component facilities and contracts, with regard to achieving its responsibilities for the San Francisco Bay/Sacramento-San Joaquin Delta Estuary as finally established and approved by relevant State and Federal authorities, and the impact of such obligations on Central Valley Project operations, supplies, and commitments.

(b) EXCEPTIONS TO LIMIT ON NEW CONTRACTS.—The prohibition on execution of new contracts under subsection (a) of this section shall not apply to contracts executed pursuant to section 305 of Public Law 102–250 or section 206 of Public Law 101–514 or to one-year contracts for delivery of surplus flood flows or contracts not to exceed two years in length for delivery of class II water in the Friant Unit. Notwithstanding the prohibition in the Energy and Water Development Appropriations Act of 1990, the Secretary is authorized, pursuant to section 203 of the Flood Control Act of 1962, to enter into a long-term contract in accordance with the Reclamation laws with the Tuolumne Regional Water District, California, for the delivery of water from the New Melones project to the county's water distribution system and a contract with the Secretary of Veteran Affairs to provide for the delivery in perpetuity of water from the project in quantities sufficient, but not to exceed 850 acre-feet per year, to meet the needs of the San Joaquin Valley National Cemetery, California.

(c) RENEWAL OF EXISTING LONG-TERM CONTRACTS.—Notwithstanding the provisions of the Act of July 2, 1956 (70 Stat. 483), the Secretary shall, upon request, renew any existing long-term repayment or water service contract for the delivery of water from

the Central Valley Project for a period of twenty-five years and may renew such contracts for successive periods of up to 25 years each.

(1) No such renewals shall be authorized until appropriate environmental review, including the preparation of the environmental impact statement required in section 3409 of this title, has been completed. Contracts which expire prior to the completion of the environmental impact statement required by section 3409 may be renewed for an interim period not to exceed three years in length, and for successive interim periods of not more than two years in length, until the environmental impact statement required by section 3409 has been finally completed, at which time such interim renewal contracts shall be eligible for long-term renewal as provided above. Such interim renewal contracts shall be modified to comply with existing law, including provisions of this title. With respect to all contracts renewed by the Secretary since January 1, 1988, the Secretary shall incorporate in said contracts a provision requiring payment of the charge mandated in subsection 3406(c) and subsection 3407(b) of this title and all other modifications needed to comply with existing law, including provisions of this title. This title shall be deemed "applicable law" as that term is used in Article 14(c) of contracts renewed by the Secretary since January 1, 1988.

(2) Upon renewal of any long-term repayment or water service contract providing for the delivery of water from the Central Valley Project, the Secretary shall incorporate all requirements imposed by existing law, including provisions of this title, within such renewed contracts. The Secretary shall also administer all existing, new, and renewed contracts in conformance with the requirements and goals of this title.

(3) In order to encourage early renewal of project water contracts and facilitate timely implementation of this title, the Secretary shall impose on existing contractors an additional mitigation and restoration payment of one and one-half times the annual mitigation and restoration payment calculated under subsection 3407(d) of this title for every year starting October 1, 1997 or January 1 of the year following the year in which the environmental impact statement required under section 3409 is completed, whichever is sooner, and ending on the effective date of the renewed contract payable prior to the renewal of such contract, to be covered to the Restoration Fund: *Provided, however,* That this paragraph shall not apply to contracts renewed after January 1, 1988, and prior to the date of enactment of this title or, in the event the environmental impact statement required by section 3409 is not completed by October 1, 1997, to any holder of a contract in existence on the date of enactment of this title who enters into a binding agreement with the Secretary prior to October 1, 1997, to renew its contract immediately upon completion of that environmental impact statement, if such contract has not expired prior to such date.

SEC. 3405. WATER TRANSFERS, IMPROVED WATER MANAGEMENT AND CONSERVATION. Contracts.

(a) WATER TRANSFERS.—In order to assist California urban areas, agricultural water users, and others in meeting their future

water needs, subject to the conditions and requirements of this subsection, all individuals or districts who receive Central Valley Project water under water service or repayment contracts, water rights settlement contracts or exchange contracts entered into prior to or after the date of enactment of this title are authorized to transfer all or a portion of the water subject to such contract to any other California water user or water agency, State or Federal agency, Indian tribe, or private nonprofit organization for project purposes or any purpose recognized as beneficial under applicable State law. Except as provided herein, the terms of such transfers shall be set by mutual agreement between the transferee and the transferor.

(1) CONDITIONS FOR TRANSFERS.—All transfers to Central Valley Project water authorized by this subsection shall be subject to review and approval by the Secretary under the conditions specified in this subsection. Transfers involving more than 20 percent of the Central Valley Project water subject to long-term contract within any contracting district or agency shall also be subject to review and approval by such district or agency under the conditions specified in this subsection:

(A) No transfer to combination of transfers authorized by this subsection shall exceed, in any year, the average annual quantity of water under contract actually delivered to the contracting district or agency during the last three years of normal water delivery prior to the date of enactment of this title.

(B) All water under the contract which is transferred under authority of this subsection to any district or agency which is not a Central Valley Project contractor at the time of enactment of this title shall, if used for irrigation purposes, be repaid at the greater of the full-cost or cost of service rates, or, if the water is used for municipal and industrial purposes, at the greater of the cost of service or municipal and industrial rates.

(C) No transfers authorized by this subsection shall be approved unless the transfer is between a willing buyer and a willing seller under such terms and conditions as may be mutually agreed upon.

(D) No transfer authorized by this subsection shall be approved unless the transfer is consistent with State law, including but not limited to provisions of the California Environmental Quality Act.

(E) All transfers authorized by this subsection shall be deemed a beneficial use of water by the transferor for the purposes of section 8 of the Act of June 17, 1902, 32 Stat. 390, 43 U.S.C. 372.

(F) All transfers entered into pursuant to this subsection for uses outside the Central Valley Project service area shall be subject to a right of first refusal on the same terms and conditions by entities within the Central Valley Project service area. The right of first refusal must be exercised within ninety days from the date that notice is provided of the proposed transfer. Should an entity exercise the right of first refusal, it must compensate the transferee who had negotiated the agreement upon which the right of first refusal is being exercised for that entity's

total costs associated with the development and negotiation of the transfer.

(G) No transfer authorized by this subsection shall be considered by the Secretary as conferring supplemental or additional benefits on Central Valley Project water contractors as provided in section 203 of Public Law 97-293 (43 U.S.C. 390(cc)).

(H) The Secretary shall not approve a transfer authorized by this subsection unless the Secretary has determined, consistent with paragraph 3405(a)(2) of this title, that the transfer will not violate the provisions of this title or other Federal law and will have no significant adverse effect on the Secretary's ability to deliver water pursuant to the Secretary's Central Valley Project contractual obligations or fish and wildlife obligations under this title because of limitations in conveyance or pumping capacity.

(I) The water subject to any transfer undertaken pursuant to this subsection shall be limited to water that would have been consumptively used or irretrievably lost to beneficial use during the year or years of the transfer.

(J) The Secretary shall not approve a transfer authorized by this subsection unless the Secretary determines, consistent with paragraph 3405(a)(2) of this title, that such transfer will have no significant long-term adverse impact on groundwater conditions in the transferor's service area.

(K) The Secretary shall not approve a transfer unless the Secretary determines, consistent with paragraph 3405(a)(2) of this title, that such transfer will have no unreasonable impact on the water supply, operations, or financial conditions of the transferor's contracting district or agency or its water users.

(L) The Secretary shall not approve a transfer if the Secretary determines, consistent with paragraph 3405(a)(2) of this title, that such transfer would result in a significant reduction in the quantity or decrease in the quality of water supplies currently used for fish and wildlife purposes, unless the Secretary determines pursuant to findings setting forth the basis for such determination that such adverse effects would be more than offset by the benefits of the proposed transfer. In the event of such a determination, the Secretary shall develop and implement alternative measures and mitigation activities as integral and concurrent elements of any such transfer to provide fish and wildlife benefits substantially equivalent to those lost as a consequence of such transfer.

(M) Transfers between Central Valley Project contractors within countries, watersheds, or other areas of origin, as those terms are utilized under California law, shall be deemed to meet the conditions set forth in subparagraphs (A) and (I) of this paragraph.

(2) REVIEW AND APPROVAL OF TRANSFERS.—All transfers subject to review and approval under this subsection shall be reviewed and approved in a manner consistent with the following:

(A) Decisions on water transfers subject to review by a contracting district or agency or by the Secretary shall

be rendered within ninety days of receiving a written transfer proposal from the transferee or transferor. Such written proposal should provide all information reasonably necessary to determine whether the transfer complies with the terms and conditions of this subsection.

(B) All transfers subject to review by a contracting district or agency shall be reviewed in a public process similar to that provided for in section 226 of Public Law 97-293.

(C) The contracting district or agency or the Secretary shall approve all transfers subject to review and approval by such entity if such transfers are consistent with the terms and conditions of this subsection. To disapprove a transfer, the contracting district or agency or the Secretary shall inform the transferee and transferor, in writing, why the transfer does not comply with the terms and conditions of this subsection and what alternatives, if any, could be included so that the transfer would reasonably comply with the requirements of this subsection.

(D) If the contracting district or agency or the Secretary fails to approve or disapprove a proposed transfer within ninety days of receiving a complete written proposal from the transferee or transferor, then the transfer shall be deemed approved.

(3) Transfers executed after September 30, 1999 shall only be governed by the provisions of subparagraphs 3405(a)(1)(A)–(C), (E), (G), (H), (I), (L), and (M) of this title, and by State law.

(b) METERING OF WATER USE REQUIRED.—All Central Valley Project water service or repayment contracts for agricultural, municipal, or industrial purposes that are entered into, renewed, or amended under any provision of Federal Reclamation law after the date of enactment of this title, shall provide that the contracting district or agency shall ensure that all surface water delivery systems within its boundaries are equipped with water measuring devices or water measuring methods of comparable effectiveness acceptable to the Secretary within five years of the date of contract execution, amendment, or renewal, and that any new surface water delivery systems installed within its boundaries on or after the date of contract renewal are so equipped. The contracting district or agency shall inform the Secretary and the State of California annually as to the monthly volume of surface water delivered within its boundaries.

Intergovernmental relations.

(c) STATE AND FEDERAL WATER QUALITY STANDARDS.—All Central Valley Project water service or repayment contracts for agricultural, municipal, or industrial purposes that are entered into, renewed, or amended under any provision of Federal Reclamation law after the date of enactment of this title, shall provide that the contracting district or agency shall be responsible for compliance with all applicable State and Federal water quality standards applicable to surface and subsurface agricultural drainage discharges generated within its boundaries. This subsection shall not affect or alter any legal obligation of the Secretary to provide drainage services.

(d) WATER PRICING REFORM.—All Central Valley Project water service or repayment contracts for a term longer than three years for agricultural, municipal, or industrial purposes that are entered

into, renewed, or amended under any provision of Federal Reclamation law after the date of enactment of this title shall provide that all project water subject to contract shall be made available to districts, agencies, and other contracting entities pursuant to a system of tiered water pricing. Such a system shall specify rates for each district, agency or entity based on an inverted block rate structure with the following provisions:

(1) the first rate tier shall apply to a quantity of water up to 80 percent of the contract total and shall not be less than the applicable contract rate;

(2) the second rate tier shall apply to that quantity of water over 80 percent and under 90 percent of the contract total and shall be at a level halfway between the rates established under paragraphs (1) and (3) of this subsection;

(3) the third rate tier shall apply to that quantity of water over 90 percent of the contract total and shall not be less than the full cost rate; and

(4) the Secretary shall charge contractors only for water actually delivered.

The Secretary shall waive application of this subsection as it relates to any project water delivered to produce a crop which the Secretary determines will provide significant and quantifiable habitat values for waterfowl in fields where the water is used and the crops are produced: *Provided,* That such waiver shall apply only if such habitat values can be assured consistent with the purposes of this title through binding agreements executed with or approved by the Secretary.

(e) WATER CONSERVATION STANDARDS.—The Secretary shall establish and administer an office of Central Valley Project water conservation best management practices that shall, in consultation with the Secretary of Agriculture, the California Department of Water Resources, California academic institutions, and Central Valley Project water users, develop criteria for evaluating the adequacy of all water conservation plans developed by project contractors, including those plans required by section 210 of the Reclamation Reform Act of 1982.

(1) Criteria developed pursuant to this subsection shall be established within six months following enactment of this title and shall be reviewed periodically thereafter, but no less than every three years, with the purpose of promoting the highest level of water use efficiency reasonably achievable by project contractors using best available cost-effective technology and best management practices. The criteria shall include, but not be limited to agricultural water suppliers' efficient water management practices developed pursuant to California State law or reasonable alternatives.

(2) The Secretary, through the office established under this subsection, shall review and evaluate within 18 months following enactment of this title all existing conservation plans submitted by project contractors to determine whether they meet the conservation and efficiency criteria established pursuant to this subsection.

(3) In developing the water conservation best management practice criteria required by this subsection, the Secretary shall take into account and grant substantial deference to the recommendations for action specific to water conservation and drainage source reduction proposed in the Final Report of the

San Joaquin Valley Drainage Program, entitled A Management Plan for Agricultural Subsurface Drainage and Related Problems on the Westside San Joaquin Valley (September 1990).

(f) INCREASED REVENUES.—All revenues received by the Secretary as a result of the increased repayment rates applicable to water transferred from irrigation use to municipal and industrial use under subsection 3405(a) of this section, and all increased revenues received by the Secretary as a result of the increased water prices established under subsection 3405(d) of this section, shall be covered to the Restoration Fund.

SEC. 3406. FISH, WILDLIFE AND HABITAT RESTORATION.

(a) AMENDMENTS TO CENTRAL VALLEY PROJECT AUTHORIZATIONS.—Act of August 26, 1937.—Section 2 of the Act of August 26, 1937 (chapter 832; 50 Stat. 850), as amended, is amended—

(1) in the second proviso of subsection (a), by inserting "and mitigation, protection, and restoration of fish and wildlife" after "Indian reservations,";

(2) in the last proviso of subsection (a), by striking "domestic uses;" and inserting "domestic uses and fish and wildlife mitigation, protection and restoration purposes;" and by striking "power" and inserting "power and fish and wildlife enhancement";

(3) by adding at the end the following: "The mitigation for fish and wildlife losses incurred as a result of construction, operation, or maintenance of the Central Valley Project shall be based on the replacement of ecologically equivalent habitat and shall take place in accordance with the provisions of this title and concurrent with any future actions which adversely affect fish and wildlife populations or their habitat but shall have no priority over them."; and

(4) by adding at the end the following: "(e) Nothing in this title shall affect the State's authority to condition water rights permits for the Central Valley Project."

California.

(b) FISH AND WILDLIFE RESTORATION ACTIVITIES.—The Secretary, immediately upon the enactment of this title, shall operate the Central Valley Project to meet all obligations under State and Federal law, including but not limited to the Federal Endangered Species Act, 16 U.S.C. 1531, et seq., and all decisions of the California State Water Resources Control Board establishing conditions on applicable licenses and permits for the project. The Secretary, in consultation with other State and Federal agencies, Indian tribes, and affected interests, is further authorized and directed to:

(1) develop within three years of enactment and implement a program which makes all reasonable efforts to ensure that, by the year 2002, natural production of anadromous fish in Central Valley rivers and streams will be sustainable, on a long-term basis, at levels not less than twice the average levels attained during the period of 1967–1991; *Provided,* That this goal shall not apply to the San Joaquin River between Friant Dam and the Mendota Pool, for which a separate program is authorized under subsection 3406(c) of this title; *Provided further,* That the programs and activities authorized by this section shall, when fully implemented, be deemed to meet the mitigation, protection, restoration, and enhancement purposes established by subsection 3406(a) of this title; *And provided further,* That in the course of developing and implementing

this program the Secretary shall make all reasonable efforts consistent with the requirements of this section to address other identified adverse environmental impacts of the Central Valley Project not specifically enumerated in this section.

(A) This program shall give first priority to measures which protect and restore natural channel and riparian habitat values through habitat restoration actions, modifications to Central Valley Project operations, and implementation of the supporting measures mandated by this subsection; shall be reviewed and updated every five years; and shall describe how the Secretary intends to operate the Central Valley Project to meet the fish, wildlife, and habitat restoration goals and requirements set forth in this title and other project purposes.

(B) As needed to achieve the goals of this program, the Secretary is authorized and directed to modify Central Valley Project operations to provide flows of suitable quality, quantity, and timing to protect all life stages of anadromous fish, except that such flows shall be provided from the quantity of water dedicated to fish, wildlife, and habitat restoration purposes under paragraph (2) of this subsection; from the water supplies acquired pursuant to paragraph (3) of this subsection; and from other sources which do not conflict with fulfillment of the Secretary's remaining contractual obligations to provide Central Valley Project water for other authorized purposes. Instream flow needs for all Central Valley Project controlled streams and rivers shall be determined by the Secretary based on recommendations of the United States Fish and Wildlife Service after consultation with the California Department of Fish and Game.

(C) The Secretary shall cooperate with the State of California to ensure that, to the greatest degree practicable, the specific quantities of yield dedicated to and managed for fish and wildlife purposes under this title are credited against any additional obligations of the Central Valley Project which may be imposed by the State of California following enactment of this title, including but not limited to increased flow and reduced export obligations which may be imposed by the California State Water Resources Control Board in implementing San Francisco Bay/Sacramento-San Joaquin Delta Estuary standards pursuant to the review ordered by the California Court of Appeals in United States v. State Water Resources Control Board, 182 Cal.App.3d 82 (1986), and that, to the greatest degree practicable, the programs and plans required by this title are developed and implemented in a way that avoids inconsistent or duplicative obligations from being imposed upon Central Valley Project water and power contractors. Intergovernmental relations.

(D) Costs associated with this paragraph shall be reimbursable pursuant to existing statutory and regulatory procedures.

(2) upon enactment of this title dedicate and manage annually eight hundred thousand acre-feet of Central Valley Project yield for the primary purpose of implementing the fish, wildlife, and habitat restoration purposes and measures authorized by this title; to assist the State of California in its efforts Intergovernmental relations.

to protect the waters of the San Francisco Bay/Sacramento-San Joaquin Delta Estuary; and to help to meet such obligations as may be legally imposed upon the Central Valley Project under State or Federal law following the date of enactment of this title, including but not limited to additional obligations under the Federal Endangered Species Act. For the purpose of this section, the term "Central Valley Project yield" means the delivery capability of the Central Valley Project during the 1928–1934 drought period after fishery, water quality, and other flow and operational requirements imposed by terms and conditions existing in licenses, permits, and other agreements pertaining to the Central Valley Project under applicable State or Federal law existing at the time of enactment of this title have been met.

(A) Such quantity of water shall be in addition to the quantities needed to implement paragraph 3406(d)(1) of this title and in addition to all water allocated pursuant to paragraph (23) of this subsection for release to the Trinity River for the purposes of fishery restoration, propagation, and maintenance; and shall be supplemented by all water that comes under the Secretary's control pursuant to subsections 3406(b)(3), 3408(h)–(i), and through other measures consistent with subparagraph 3406(b)(1)(B) of this title.

(B) Such quantity of water shall be managed pursuant to conditions specified by the United States Fish and Wildlife Service after consultation with the Bureau of Reclamation and the California Department of Water Resources and in cooperation with the California Department of Fish and Game.

(C) The Secretary may temporarily reduce deliveries of the quantity of water dedicated under this paragraph up to 25 percent of such total whenever reductions due to hydrologic circumstances are imposed upon agricultural deliveries of Central Valley Project water; *Provided,* That such reductions shall not exceed in percentage terms the reductions imposed on agricultural service contractors; *Provided further,* That nothing in this subsection or subsection 3406(e) shall require the Secretary to operate the project in a way that jeopardizes human health or safety.

(D) If the quantity of water dedicated under this paragraph, or any portion thereof, is not needed for the purposes of this section, based on a finding by the Secretary, the Secretary is authorized to make such water available for other project purposes.

(3) develop and implement a program in coordination and in conformance with the plan required under paragraph (1) of this subsection for the acquisition of a water supply to supplement the quantity of water dedicated to fish and wildlife purposes under paragraph (2) of this subsection and to fulfill the Secretary's obligations under paragraph 3406(d)(2) of this title. The program should identify how the Secretary intends to utilize, in particular the following options: improvements in or modifications of the operations of the project; water banking; conservation; transfers; conjunctive use; and temporary and permanent land fallowing, including purchase, lease, and option of water, water rights, and associated agricultural land.

Costs associated with this paragraph shall be reimbursed in accordance with the following formula: 37.5 percent shall be reimbursed as main project features, 37.5 percent shall be considered a nonreimbursable Federal expenditure, and 25 percent shall be paid by the State of California. The reimbursable share of funding for this and other facility repairs, improvements, and construction shall be allocated among project water and power users in accordance with existing project cost allocation procedures.

(8) make use of short pulses of increased water flows to increase the survival of migrating anadromous fish moving into and through the Sacramento-San Joaquin Delta and Central Valley rivers and streams.

(9) develop and implement a program to eliminate, to the extent possible, losses of anadromous fish due to flow fluctuations caused by the operation of any Central Valley Project storage or re-regulating facility. The program shall be patterned where appropriate after the agreement between the California Department of Water Resources and the California Department of Fish and Game with respect to the operation of the California State Water Project Oroville Dam complex.

(10) develop and implement measures to minimize fish passage problems for adult and juvenile anadromous fish at

the Red Bluff Diversion Dam in a manner that provides for the use of associated Central Valley Project conveyance facilities for delivery of water to the Sacramento Valley National Wildlife Refuge complex in accordance with the requirements of subsection (d) of this section. Costs associated with implementation of this paragraph shall be reimbursed in accordance with the following formula: 37.5 percent shall be reimbursed as main project features, 37.5 percent shall be considered a nonreimbursable Federal expenditure, and 25 percent shall be paid by the State of California.

Costs associated with implementation of this paragraph shall be reimbursed in accordance with the following formula: 50 percent shall be reimbursed as main project features and 50 percent shall be considered a nonreimbursable Federal expenditure.

(12) develop and implement a comprehensive program to provide flows to allow sufficient spawning, incubation, rearing, and outmigration for salmon and steelhead from Whiskeytown Dam as determined by instream flow studies conducted by the California Department of Fish and Game after Clear Creek has been restored and a new fish ladder has been constructed at the McCormick-Saeltzer Dam. Costs associated with channel restoration, passage improvements, and fish ladder construction required by this paragraph shall be allocated 50 percent to the United States as a nonreimbursable expenditure and 50 percent to the State of California. Costs associated with providing the flows required by this paragraph shall be allocated among project purposes.

(13) develop and implement a continuing program for the purpose of restoring and replenishing, as needed, spawning gravel lost due to the construction and operation of Central Valley Project dams, bank protection projects, and other actions that have reduced the availability of spawning gravel and rearing habitat in the Upper Sacramento River from Keswick Dam to Red Bluff Diversion Dam, and in the American and Stanislaus Rivers downstream from the Nimbus and Goodwin Dams, respectively. The program shall include preventive measures, such as re-establishment of meander belts and limitations on future bank protection activities, in order to avoid further losses of instream and riparian habitat. Costs associated with implementation of this paragraph shall be reimbursed in accordance with the following formula: 37.5 percent shall be reimbursed as main project features, 37.5 percent shall be considered a nonreimbursable Federal expenditure, and 25 percent shall be paid by the State of California.

(14) develop and implement a program which provides for modified operations and new or improved control structures at the Delta Cross Channel and Georgiana Slough during times when significant numbers of striped bass eggs, larvae, and juveniles approach the Sacramento River intake to the Delta Cross Channel or Georgiana Slough. Costs associated with

implementation of this paragraph shall be reimbursed in accordance with the following formula: 37.5 percent shall be reimbursed as main project features, 37.5 percent shall be considered a nonreimbursable Federal expenditure, and 25 percent shall be paid by the State of California.

(15) construct, in cooperation with the State of California and in consultation with local interests, a barrier at the head of Old River in the Sacramento-San Joaquin Delta to be operated on a seasonal basis to increase the survival of young outmigrating salmon that are diverted from the San Joaquin River to Central Valley Project and State Water Project pumping plants and in a manner that does not significantly impair the ability of local entities to divert water. The costs associated with implementation of this paragraph shall be reimbursed in accordance with the following formula: 37.5 percent shall be reimbursed as main project features, 37.5 percent shall be considered a nonreimbursable Federal expenditure, and 25 percent shall be paid by the State of California.

The United States' share of costs associated with implementation of this paragraph shall be nonreimbursable.

(19) reevaluate existing operational criteria in order to maintain minimum carryover storage at Sacramento and Trinity River reservoirs to protect and restore the anadromous fish of the Sacramento and Trinity Rivers in accordance with the mandates and requirements of this subsection and subject to the Secretary's responsibility to fulfill all project purposes, including agricultural water delivery.

(20) participate with the State of California and other Federal agencies in the implementation of the on-going program to mitigate fully for the fishery impacts associated with operations of the Glenn-Colusa Irrigation District's Hamilton City Pumping Plant. Such participation shall include replacement of the defective fish screens and fish recovery facilities associ-

ated with the Hamilton City Pumping Plant. This authorization shall not be deemed to supersede or alter existing authorizations for the participation of other Federal agencies in the mitigation program. Seventy-five percent shall be considered a nonreimbursable Federal expenditure, and 25 percent shall be paid by the State of California.

(21) assist the State of California in efforts to develop and implement measures to avoid losses of juvenile anadromous fish resulting from unscreened or inadequately screened diversions on the Sacramento and San Joaquin rivers, their tributaries, the Sacramento-San Joaquin Delta, and the Suisun Marsh. Such measures shall include but shall not be limited to construction of screens on unscreened diversions, rehabilitation of existing screens, replacement of existing non-functioning screens, and relocation of diversions to less fishery-sensitive areas. (22) provide such incentives as the Secretary determines to be appropriate or necessary, consistent with the goals and objectives of this title, to encourage farmers to participate in a program, which the Secretary shall develop, under which such farmers will keep fields flooded during appropriate time periods for the purposes of waterfowl habitat creation and maintenance and for Central Valley Project yield enhancement; *Provided,* That such incentives shall not exceed $2,000,000 annually, either directly or through credits against other contractual payment obligations, including the pricing waivers authorized under subsection 3405(d) of this tile; *Provided further,* That the holder of the water contract shall pass such incentives through to farmers participating in the program, less reasonable contractor costs, if any; *And provided further,* That such water may be transferred subject to section 3405(a) of this title only if the farmer waives all rights to such incentives. This provision shall terminate by the year 2002.

(23) in order to meet Federal trust responsibilities to protect the fishery resources of the Hoopa Valley Tribe, and to meet the fishery restoration goals of the Act of October 24, 1984, Public Law 98-541, provide through the Trinity River Division, for water years 1992 through 1996, an instream release of water to the Trinity River of not less than three hundred and forty thousand acre-feet per year for the purposes of fishery restoration, propagation, and maintenance and,

(A) by September 30, 1996, the Secretary, after consultation with the Hoopa Valley Tribe, shall complete the Trinity River Flow Evaluation Study currently being conducted by the United States Fish and Wildlife Service under the mandate of the Secretarial Decision of January 14, 1981, in a manner which insures the development of recommendations, based on the best available scientific data, regarding permanent instream fishery flow requirements and Trinity River Division operating criteria and procedures for the restoration and maintenance of the Trinity River fishery; and

(B) not later than December 31, 1996, the Secretary shall forward the recommendations of the Trinity River Flow Evaluation Study, referred to in subparagraph (A)

of this paragraph, to the Committee on Energy and Natural Resources and the Select Committee on Indian Affairs of the Senate and the Committee on Interior and Insular Affairs and the Committee on Merchant Marine and Fisheries of the House of Representatives. If the Secretary and the Hoopa Valley Tribe concur in these recommendations, any increase to the minimum Trinity River instream fishery releases established under this paragraph and the operating criteria and procedures referred to in subparagraph (A) shall be implemented accordingly. If the Hoopa Valley Tribe and the Secretary do not concur, the minimum Trinity River instream fishery releases established under this paragraph shall remain in effect unless increased by an Act of Congress, appropriate judicial decree, or agreement between the Secretary and the Hoopa Valley Tribe. Costs associated with implementation of this paragraph shall be reimbursable as operation and maintenance expenditures pursuant to existing law.

If the Secretary and the State of California determine that long-term natural fishery productivity in all Central Valley Project controlled rivers and streams resulting from implementation of this section exceeds that which existed in the absence of Central Valley Project facilities, the costs of implementing those measures which are determined to provide such enhancement shall become credits to offset reimbursable costs associated with implementation of this subsection.

(c) SAN JOAQUIN AND STANISLAUS RIVERS.—The Secretary shall, by not later than September 30, 1996:

(1) develop a comprehensive plan, which is reasonable, prudent, and feasible, to address fish, wildlife, and habitat concerns on the San Joaquin River, including but not limited to the streamflow, channel, riparian habitat, and water quality improvements that would be needed to reestablish where necessary and to sustain naturally reproducing anadromous fisheries from Friant Dam to its confluence with the San Francisco Bay/Sacramento-San Joaquin Delta Estuary. Such plan shall be developed in cooperation with the California Department of Fish and Game and in coordination with the San Joaquin River Management Program under development by the State of California; shall comply with and contain any documents required by the National Environmental Policy Act and contain findings setting forth the basis for the Secretary's decision to adopt and implement the plan as well as recommendations concerning the need for subsequent Congressional action, if any; and shall incorporate, among other relevant factors, the potential contributions of tributary streams as well as the alternatives to be investigated under paragraph (2) of this subsection. During the time that the Secretary is developing the plan provided for in this subsection, and until such time as Congress has authorized the Secretary to implement such plan, with or without modifications, the Secretary shall not, as a measure to implement this title, make releases for the restoration of flows between Gravelly Ford and the Mendota Pool and shall not thereafter make such releases as a measure to implement this title without a specific Act of Congress authorizing such releases. In lieu of such requirement, and until such time as flows of sufficient quantity, quality and

timing are provided at and below Gravelly Ford to meet the anadromous fishery needs identified pursuant to such plan, if any, entities who receive water from the Friant Division of the Central Valley Project shall be assessed, in addition to all other applicable charges, a $4 per acre-foot surcharge for all Project water delivered on or before September 30, 1997; a $5 per acre-foot surcharge for all Project water delivered after September 30, 1997 but on or before September 30, 1999; and a $7 per acre-foot surcharge for all Project water delivered thereafter, to be covered into the Restoration Fund.

(2) in the course of preparing the Stanislaus River Basin and Calaveras River Water Use Program Environmental Impact Statement and in consultation with the State of California, affected counties, and other interests, evaluate and determine existing and anticipated future basin needs in the Stanislaus River Basin. In the course of such evaluation, the Secretary shall investigate alternative storage, release, and delivery regimes, including but not limited to conjunctive use operations, conservation strategies, exchange arrangements, and the use of base and channel maintenance flows, in order to best satisfy both basin and out-of-basin needs consistent, on a continuing basis, with the limitations and priorities established in the Act of October 23, 1962 (76 Stat. 173). For the purposes of this subparagraph, "basin needs" shall include water supply for agricultural, municipal and industrial uses, and maintenance and enhancement of water quality, and fish and wildlife resources within the Stanislaus River Basin as established by the Secretary's June 29, 1981 Record of Decision; and "out-of-basin" needs shall include all such needs outside of the Stanislaus River Basin, including those of the San Francisco Bay/Sacramento-San Joaquin Delta Estuary and those of the San Joaquin River under paragraph (1) of this subsection.

(d) CENTRAL VALLEY REFUGES AND WILDLIFE HABITAT AREAS.—In support of the objectives of the Central Valley Habitat Joint Venture and in furtherance of the purposes of this title, the Secretary shall provide, either directly or through contractual agreements with other appropriate parties, firm water supplies of suitable quality to maintain and improve wetland habitat areas on units of the National Wildlife Refuge System in the Central Valley of California; on the Gray Lodge, Los Banos, Volta, North Grasslands, and Mendota state wildlife management areas; and on the Grasslands Resources Conservation District in the Central Valley of California.

(1) Upon enactment of this title, the quantity and delivery schedules of water measured at the boundaries of each wetland habitat area described in this paragraph shall be in accordance with level 2 of the "Dependable Water Supply Needs" table for those habitat areas as set forth in the Refuge Water Supply Report and two-thirds of the water supply needed for full habitat development for those habitat areas identified in the San Joaquin Basin Action Plan/Kesterson Mitigation Action Plan Report prepared by the Bureau of Reclamation. Such water shall be provided through long-term contractual agreements with appropriate parties and shall be supplemented by the increment of water provided for in paragraph (1) of this subsection; *Provided,* That the Secretary shall be obligated to provide such water whether or not such long-term contractual

agreements are in effect. In implementing this paragraph, the Secretary shall endeavor to diversify sources of supply in order to minimize possible adverse effects upon Central Valley Project contractors.

(2) Not later than ten years after enactment of this title, the quantity and delivery schedules of water measured at the boundaries of each wetland habitat area described in this paragraph shall be in accordance with level 4 of the "Dependable Water Supply Needs" table for those habitat areas as set forth in the Refuge Water Supply Report and the full water supply needed for full habitat development for those habitat areas identified in the San Joaquin Basin Action Plan/Kesterson Mitigation Action Plan Report prepared by the Bureau of Reclamation. The quantities of water required to supplement the quantities provided under paragraph (1) of this subsection shall be acquired by the Secretary in cooperation with the State of California and in consultation with the Central Valley Habitat Joint Venture and other interests in cumulating increments of not less than ten percent per annum through voluntary measures which include water conservation, conjunctive use, purchase, lease, donations, or similar activities, or a combination of such activities which do not require involuntary reallocations of project yield.

(3) All costs associated with implementation of paragraph (1) of this subsection shall be reimbursable pursuant to existing law. Incremental costs associated with implementation of paragraph (2) of this subsection shall be fully allocated in accordance with the following formula: 75 percent shall be deemed a nonreimbursable Federal expenditure; and 25 percent shall be allocated to the State of California for recovery through direct reimbursements or through equivalent in-kind contributions.

(4) The Secretary may temporarily reduce deliveries of the quantity of water dedicated under paragraph (1) of this subsection up to 25 percent of such total whenever reductions due to hydrologic circumstances are imposed upon agricultural deliveries of Central Valley Project water; *Provided*, That such reductions shall not exceed in percentage terms the reductions imposed on agricultural service contractors. For the purpose of shortage allocation, the priority or priorities applicable to the increment of water provided under paragraph (2) of this subsection shall be the priority or priorities which applied to the water in question prior to its transfer to the purpose of providing such increment.

(5) The Secretary is authorized and directed to construct or to acquire from non-Federal entities such water conveyance facilities, conveyance capacity, and wells as are necessary to implement the requirements of this subsection; *Provided*, That such authorization shall not extend to conveyance facilities in or around the Sacramento-San Joaquin Delta Estuary. Associated construction or acquisition costs shall be reimbursable pursuant to existing law in accordance with the cost allocations set forth in paragraph (3) of this subsection.

(6) The Secretary, in consultation with the State of California, the Central Valley Habitat Joint Venture, and other interests, shall investigate and report on the following supplemental actions by not later than September 30, 1997: Reports.

(A) alternative means of improving the reliability and quality of water supplies currently available to privately owned wetlands in the Central Valley and the need, if any, for additional supplies; and

(B) water supply and delivery requirements necessary to permit full habitat development for water dependent wildlife on one hundred and twenty thousand acres supplemental to the existing wetland habitat acreage identified in Table 8 of the Central Valley Habitat Joint Venture's "Implementation Plan" dated April 19, 1990, as well as feasible means of meeting associated water supply requirements.

(e) SUPPORTING INVESTIGATIONS.—Not later than five years after the date of enactment of this title, the Secretary shall investigate and provide recommendations to the Committee on Energy and Natural Resources of the Senate and the Committees on Interior and Insular Affairs and Merchant Marine and Fisheries of the House on the feasibility, cost, and desirability of developing and implementing each of the following, including, but not limited to, the impact on the project, its users, and the State of California:

(1) measures to maintain suitable temperatures for anadromous fish survival in the Sacramento and San Joaquin rivers and their tributaries, and the Sacramento-San Joaquin Delta by controlling or relocating the discharge of irrigation return flows and sewage effluent, and by restoring riparian forests;

(2) opportunities for additional hatchery production to mitigate the impacts of water development and operations on, or enhance efforts to increase Central Valley fisheries; *Provided,* That additional hatchery production shall only be used to supplement or to re-establish natural production while avoiding adverse effects on remaining wild stocks;

(3) measures to eliminate barriers to upstream and downstream migration of salmonids in the Central Valley, including but not limited to screening programs, barrier removal programs and programs for the construction or rehabilitation of fish ladders on tributary streams;

(4) installation and operation of temperature control devices at Trinity Dam and Reservoir to assist in the Secretary's efforts to conserve cold water for fishery protection purposes;

(5) measures to provide for modified operations and new or improved control structures at the Delta Cross Channel and Georgiana Slough to assist in the successful migration of anadromous fish; and

(6) other measures which the Secretary determines would protect, restore, and enhance natural production of salmon and steelhead trout in tributary streams of the Sacramento and San Joaquin Rivers, including but not limited to the Merced, Mokulumne, and Calaveras Rivers and Battle, Butte, Deer, Elder, Mill, and Thomes Creeks.

(f) REPORT ON PROJECT FISHERY IMPACTS.—The Secretary, in consultation with the Secretary of Commerce, the State of California, appropriate Indian tribes, and other appropriate public and private entities, shall investigate and report on all effects of the Central Valley Project on anadromous fish populations and the fisheries, communities, tribes, businesses and other interests and entities that have now or in the past had significant economic, social or cultural association with those fishery resources. The Sec-

retary shall provide such report to the Committee on Energy and Natural Resources of the Senate and the Committees on Interior and Insular Affairs and Merchant Marine and Fisheries of the House of Representatives not later than two years after the date of enactment of this title.

(g) ECOSYSTEM AND WATER SYSTEM OPERATIONS MODELS.—The Secretary, in cooperation with the State of California and other relevant interests and experts, shall develop readily usable and broadly available models and supporting data to evaluate the ecologic and hydrologic effects of existing and alternative operations of public and private water facilities and systems in the Sacramento, San Joaquin, and Trinity River watersheds. The primary purpose of this effort shall be to support the Secretary's efforts in fulfilling the requirements of this title through improved scientific understanding concerning, but not limited to, the following:

(1) a comprehensive water budget of surface and groundwater supplies, considering all sources of inflow and outflow available over extended periods;

(2) related water quality conditions and improvement alternatives, including improved temperature prediction capabilities as they relate to storage and flows;

(3) surface-ground and stream-wetland interactions;

(4) measures needed to restore anadromous fisheries to optimum and sustainable levels in accordance with the restored carrying capacities of Central Valley rivers, streams, and riparian habitats;

(5) development and use of base flows and channel maintenance flows to protect and restore natural channel and riparian habitat values;

(6) implementation of operational regimes at State and Federal facilities to increase springtime flow releases, retain additional floodwaters, and assist in restoring both upriver and downriver riparian habitats;

(7) measures designed to reach sustainable harvest levels of resident and anadromous fish, including development and use of systems of tradeable harvest rights;

(8) opportunities to protect and restore wetland and upland habitats throughout the Central Valley; and

(9) measures to enhance the firm yield of existing Central Valley Project facilities, including improved management and operations, conjunctive use opportunities, development of offstream storage, levee setbacks, and riparian restoration.

All studies and investigations shall take into account and be fully consistent with the fish, wildlife, and habitat protection and restoration measures required by this title or by any other State or Federal law. Seventy-five percent of the costs associated with implementation of this subsection shall be borne by the United States as a nonreimbursable cost; the remaining 25 percent shall be borne by the State of California.

Contracts.
Intergovernmental relations.

(h) The Secretary shall enter into a binding cost-share agreement with the State of California with respect to the timely reimbursement of costs allocated to the State in this title. Such agreement shall provide for consideration of the value of direct reimbursements, specific contributions to the Restoration Fund, and water, conveyance capacity, or other contributions in-kind that would supplement existing programs and that would, as determined

by the Secretary, materially contribute to attainment of the goals and objectives of this title.

SEC. 3407. RESTORATION FUND.

(a) RESTORATION FUND ESTABLISHED.—There is hereby established in the Treasury of the United States the "Central Valley Project Restoration Fund" (hereafter "Restoration Fund") which shall be available for deposit of donations from any source and revenues provided under sections 3404(c)(3), 3405(f), 3406(c)(1), and 3407(d) of this title. Amounts deposited shall be credited as offsetting collections. Not less than 67 percent of all funds made available to the Restoration Fund under this title are authorized to be appropriated to the Secretary to carry out the habitat restoration, improvement and acquisition (from willing sellers) provisions of this title. Not more than 33 percent of all funds made available to the Restoration Fund under this title are authorized to be appropriated to the Secretary to carry out the provisions of paragraphs 3406(b)(4)–(6), (10)–(18), and (20)–(22) of this title. Monies donated to the Restoration Fund by non-Federal entities for specific purposes shall be expended for those purposes only and shall not be subject to appropriation.

(b) AUTHORIZATION OF APPROPRIATIONS.—Such sums as are necessary, up to $50,000,000 per year (October 1992 price levels), are authorized to be appropriated to the Secretary to be derived from the Restoration Fund to carry out programs, projects, plans, and habitat restoration, improvement, and acquisition provisions of this title. Any funds paid into the Restoration Fund by Central Valley Project water and power contractors and which are also used to pay for the projects and facilities set forth in section 3406(b), shall act as an offset against any water and power contractor cost share obligations that are otherwise provided for in this title.

(c) MITIGATION AND RESTORATION PAYMENTS BY WATER AND POWER BENEFICIARIES.—

(1) To the extent required in appropriation Acts, the Secretary shall assess and collect additional annual mitigation and restoration payments, in addition to the charges provided for or collected under sections 3404(c)(3), 3405(a)(1)(C), 3405(f), and 3406(c)(1) of this title, consisting of charges to direct beneficiaries of the Central Valley Project under subsection (d) of this section in order to recover a portion or all of the costs of fish, wildlife, and habitat restoration programs and projects under this title.

(2) The payment described in this subsection shall be established at amounts that will result in collection, during each fiscal year, of an amount that can be reasonably expected to equal the amount appropriated each year, subject to subsection (d) of this section, and in combination with all other receipts identified under this title, to carry out the purposes identified in subsection (b) of this section; *Provided,* That, if the total amount appropriated under subsection (b) of this section for the fiscal years following enactment of this title does not equal $50,000,000 per year (October 1992 price levels) on an average annual basis, the Secretary shall impose such charges in fiscal year 1998 and in each fiscal year thereafter, subject to the limitations in subsection (d) of this section, as may be required to yield in fiscal year 1998 and in each fiscal

year thereafter total collections equal to $50,000,000 per year (October 1992 price levels) on a three-year rolling average basis for each fiscal year that follows enactment of this title.

(d) ADJUSTMENT AND ASSESSMENT OF MITIGATION AND RESTORATION PAYMENTS.—

(1) In assessing the annual payments to carry out subsection (c) of this section, the Secretary shall, prior to each fiscal year, estimate the amount that could be collected in each fiscal year pursuant to subparagraphs 2(A) and (B) of this subsection. The Secretary shall decrease all such payments on a proportionate basis from amounts contained in the estimate so that an aggregate amount is collected pursuant to the requirements of paragraph (c)(2) of this section.

(2) The Secretary shall assess and collect the following mitigation and restoration payments, to be covered to the Restoration Fund, subject to the requirements of paragraph (1) of this subsection:

(A) The Secretary shall require Central Valley Project water and power contractors to make such additional annual payments as are necessary to yield, together with all other receipts, the amount required under paragraph (c)(2) of this subsection; *Provided*, That such additional payments shall not exceed $30,000,000 (October 1992 price levels) on a three-year rolling average basis; *Provided further*, That such additional annual payments shall be allocated so as not to exceed $6 per acre-foot (October 1992 price levels) for agricultural water sold and delivered by the Central Valley Project, and $12 per acre-foot (October 1992 price levels) for municipal and industrial water sold and delivered by the Central Valley Project; *Provided further*, That the charge imposed on agricultural water shall be reduced, if necessary, to an amount within the probable ability of the water users to pay as determined and adjusted by the Secretary no less than every five years, taking into account the benefits resulting from implementation of this title; *Provided further*, That the Secretary shall impose an additional annual charge of $25 per acre-foot (October 1992 price levels) for Central Valley Project water sold or transferred to any State or local agency or other entity which has not previously been a Central Valley Project customer and which contracts with the Secretary or any other individual or district receiving Central Valley Project water to purchase or otherwise transfer any such water for its own use for municipal and industrial purposes, to be deposited in the Restoration Fund; *And Provided further*, That upon the completion of the fish, wildlife, and habitat mitigation and restoration actions mandated under section 3406 of this title, the Secretary shall reduce the sums described in paragraph (c)(2) of this section to $35,000,000 per year (October 1992 price levels) and shall reduce the annual mitigation and restoration payment ceiling established under this subsection to $15,000,000 (October 1992 price levels) on a three-year rolling average basis. The amount of the mitigation and restoration payment made by Central Valley Project water and power users, taking into account all funds collected under this title, shall, to the greatest degree practicable, be assessed in

the same proportion, measured over a ten-year rolling average, as water and power users' respective allocations for repayment of the Central Valley Project.

(e) FUNDING TO NON-FEDERAL ENTITIES.—If the Secretary determines that the State of California or an agency or subdivision thereof, an Indian tribe, or a nonprofit entity concerned with restoration, protection, or enhancement of fish, wildlife, habitat, or environmental values is able to assist in implementing any action authorized by this title in an efficient, timely, and cost effective manner, the Secretary is authorized to provide funding to such entity on such terms and conditions as he deems necessary to assist in implementing the identified action.

(f) RESTORATION FUND FINANCIAL REPORTS.—The Secretary shall, not later than the first full fiscal year after enactment of this title, and annually thereafter, submit a detailed report to the Committee on Energy and Natural Resources and the Committee on Appropriations of the Senate, and the Committee on Interior and Insular Affairs, the Committee on Merchant Marine and Fisheries, and the Committee on Appropriations of the House of Representatives. Such report shall describe all receipts to and uses made of monies within the Restoration Fund and the Restoration Account during the prior fiscal year and shall include the Secretary's projection with respect to receipts to and uses to be made of the finds during the next upcoming fiscal year.

(c) CONTRACTS FOR ADDITIONAL STORAGE AND DELIVERY OF WATER.—The Secretary is authorized to enter into contracts pursuant to Reclamation law and this title with any Federal agency, California water user or water agency, State agency, or private nonprofit organization for the exchange, impoundment, storage, carriage, and delivery of Central Valley Project and non-project water for domestic, municipal, industrial, fish and wildlife, and any other beneficial purpose, except that nothing in this subsection shall be deemed to supersede the provisions of section 103 of Public Law 99–546 (100 Stat. 3051).

(d) USE OF PROJECT FACILITIES FOR WATER BANKING.—The Secretary, in consultation with the State of California, is authorized to enter into agreements to allow project contracting entities to use project facilities, where such facilities are not otherwise committed or required to fulfill project purposes or other Federal obligations, for supplying carry-over storage of irrigation and other water for drought protection, multiple-benefit credit-storage operations, and other purposes. The use of such water shall be consistent with and subject to State law. All or a portion of the water provided

for fish and wildlife under this title may be banked for fish and wildlife purposes in accordance with this subsection.

(e) LIMITATION ON CONSTRUCTION.—This title does not and shall not be interpreted to authorize construction of water storage facilities, nor shall it limit the Secretary's ability to participate in water banking or conjunctive use programs.

(f) ANNUAL REPORTS TO CONGRESS.—Not later than September 30 of each calendar year after the date of enactment of this title, the Secretary shall submit a detailed report to the Committee on Energy and Natural Resources of the Senate and the Committee on Interior and Insular Affairs and the Committee on Merchant Marine and Fisheries of the House of Representatives. Such report shall describe all significant actions taken by the Secretary pursuant to this title and progress toward achievement of the intent, purposes and provisions of this title. Such report shall include recommendations for authorizing legislation or other measures, if any, needed to implement the intent, purposes and provisions of this title.

(2) The Secretary is authorized to purchase, under the authority of paragraph (h)(i), and pursuant to such rules and regulations as may be adopted or promulgated to implement the provisions of this subsection, agricultural land which, in the opinion of the Secretary—

(A) would, if permanently retired from irrigation, improve water conservation by a district, or improve the quality of an irrigation district's agricultural wastewater and assist the district in implementing the provisions of a water conservation plan approved under section 210 of the Reclamation Reform Act of 1982 and agricultural wastewater management activities developed pursuant to recommendations specific to water conservation, drainage source reduction, and land retirement contained in the final report of the San Joaquin Valley Drainage Program (September, 1990); or

(B) are no longer suitable for sustained agricultural production because of permanent damage resulting from severe drainage or agricultural wastewater management problems, groundwater withdrawals, or other causes.

(i) WATER CONSERVATION.—

Such water shall be used by the Secretary to meet the Secretary's obligations under this title, including the requirements of paragraph 3406(b)(3). Such projects or measures must be implemented fully by September 30, 1999.

(2) There are authorized to be appropriated through the end of fiscal year 1998 such sums as may be necessary to carry out the provisions of this subsection. Funds appropriated under this subsection shall be a nonreimbursable Federal expenditure.

(j) PROJECT YIELD INCREASE.—In order to minimize adverse effects, if any, upon existing Central Valley Project water contractors resulting from the water dedicated to fish and wildlife under this title, and to assist the State of California in meeting its future water needs, the Secretary shall, not later than three years after the date of enactment of this title, develop and submit to the Congress, a least-cost plan to increase, within fifteen years after the date of enactment of this title, the yield of the Central Valley Project by the amount dedicated to fish and wildlife purposes under this title. The plan authorized by this subsection shall include, but shall not be limited to a description of how the Secretary intends to use the following options:

(1) improvements in, modification of, or additions to the facilities and operations of the project;

(2) conservation;

(3) transfers;

(4) conjunctive use;

(5) purchase of water;

(6) purchase and idling of agricultural land; and

(7) direct purchase of water rights.

Such plan shall include recommendations on appropriate cost-sharing arrangements and shall be developed in a manner consistent with all applicable State and Federal law.

Such statement shall consider impacts and benefits within the Sacramento, San Joaquin, and Trinity River basins, and the San Francisco Bay/Sacramento-San Joaquin River Delta Estuary. The cost of the environmental impact statement described in this section shall be treated as a capital expense in accordance with Reclamation law.

priated under this title shall remain available until expended without fiscal year limitation.

SEC. 3411. COMPLIANCE WITH STATE WATER LAW AND COORDINATED OPERATIONS AGREEMENT.

(a) Nothwithstanding any other provision of this title, the Secretary shall, prior to the reallocation of water from any purpose of use or place of use specified within applicable Central Valley Project water rights permits and licenses to a purpose of use or place of use not specified within said permits or licenses, obtain a modification in those permits and licenses, in a manner consistent with the provisions of applicable State law, to allow such change in purpose of use or place of use.

(b) The Secretary, in the implementation of the provisions of this title, shall fully comply with the United States' obligations as set forth in the "Agreement Between the United States of America and the Department of Water Resources of the State of California for Coordinated Operation of the Central Valley Project and the State Water Project" dated May 20, 1985, and the provisions of Public Law 99–546; and shall take no action which shifts an obligation that otherwise should be borne by the Central Valley Project to any other lawful water rights permittee or licensee.

SEC. 3412. EXTENSION OF THE TEHAMA-COLUSA CANAL SERVICE AREA.

The first paragraph of section 2 of the Act of September 26, 1950 (64 Stat. 1036), as amended by the Act of August 19, 1967 (81 Stat. 167), and the Act of December 22, 1980 (94 Stat. 3339), authorizing the Sacramento Valley Irrigation Canals, Central Valley Project, California, is further amended by striking "Tehama, Glenn, and Colusa Counties, and those portions of Yolo County within the boundaries of the Colusa County, Dunnigan, and Yolo-Zamora water districts or" and inserting "Tehama, Glenn, Colusa, Solano, and Napa Counties, those portions of Yolo County within the boundaries of Colusa County Water District, Dunnigan Water District, Yolo-Zamora Water District, and Yolo County Flood Control and Water Conservation District, or".

TITLE XXXV—THREE AFFILIATED TRIBES AND STANDING ROCK SIOUX TRIBE EQUITABLE COMPENSATION PROGRAM, NORTH DAKOTA

SEC. 3501. SHORT TITLE.

This title may be cited as the "Three Affiliated Tribes and Standing Rock Sioux Tribe Equitable Compensation Act".

SEC. 3502. DEFINITIONS.

As used in this title, the term—

(1) "Secretary" means the Secretary of the Interior;

(2) "Three Affiliated Tribes" means the Mandan, Hidatsa, and Arikara Tribes that reside on the Fort Berthold Indian Reservation, a Federal reservation established by treaty and agreement between the Tribes and the United States;

(3) "Standing Rock Sioux Tribe" means the members of the Great Sioux Nation that reside on the Standing Rock Indian Reservation, established by treaty between the Tribe and the United States; and

(4) "Joint Tribal Advisory Committee" means the commission established by the Secretary on May 10, 1985, for the purpose of assessing the impacts of the Garrison and Oahe Dams on the Three Affiliated Tribes and the Standing Rock Sioux Tribe.

SEC. 3503. FINDINGS; DECLARATIONS.

(a) FINDINGS.—In recognition of the findings, conclusions, and recommendations of the Secretary's Joint Tribal Advisory Committee, Congress finds that the Three Affiliated Tribes and the Standing Rock Sioux Tribe should be adequately compensated for the taking, in the case of the Three Affiliated Tribes, of one hundred and fifty-six thousand acres of reservation lands and, in the case of the Standing Rock Sioux Tribe, fifty-six thousand acres of reservation lands, as the site for the Garrison Dam and Reservoir, and the Oahe Dam and Reservoir. Congress concurs in the Advisory Committee's findings and conclusions that the Untied States Government did not justly compensate such Tribes when it acquired those lands.

(b) DECLARATIONS.—(1) The Congress declares that the Three Affiliated Tribes are entitled to additional financial compensation for the taking of one hundred and fifty-six thousand acres of their reservation lands, including thousands of acres of prime agricultural bottom lands, as the site for the Garrison Dam and Reservoir, and that such amounts should be deposited in the Recovery Fund established by section 3504(a) for use in accordance with this title.

(2) The Congress declares that the Standing Rock Sioux Tribe is entitled to additional financial compensation for the taking of over fifty-six thousand acres of its reservation lands, as the site for the Oahe Dam and Reservoir, and that such amounts should be deposited in the Standing Rock Sioux Tribe Economic Recovery Fund established by section 3504(b) for use in accordance with this title.

SEC. 3504. FUNDS.

San Carlos Apache Tribe Water Rights Settlement Act of 1992.

TITLE XXXVII—SAN CARLOS APACHE TRIBE WATER RIGHTS SETTLEMENT, ARIZONA

Contracts.
Claims.

SEC. 3701. SHORT TITLE.

This title may be cited as the "San Carlos Apache Tribe Water Rights Settlement Act of 1992".

SEC. 3702. CONGRESSIONAL FINDINGS.

(a) SPECIFIC FINDINGS.—The Congress finds and declares that—

(1) it is the policy of the United States, in fulfillment of its trust responsibility to Indian tribes, to promote Indian self-determination and economic self-sufficiency, and to settle, wherever possible, the water rights claims of Indian tribes without lengthy and costly litigation;

(2) meaningful Indian self-determination and economic self-sufficiency depend on the development of viable Indian reservation economies;

(3) qualification of rights to water and development of facilities needed to utilize tribal water supplies effectively is essential to the development of viable Indian reservation economies, particularly in arid western States;

(4) on November 9, 1871, and by actions subsequent thereto, the United States Government established a reservation for the San Carlos Apache Tribe in Arizona;

(5) the United States, as trustee for the San Carlos Apache Tribe, obtained water entitlements for the Tribe pursuant to the Globe Equity Decree of 1935; however, continued uncertainty as to the full extent of the Tribe's entitlement to water has severely limited the Tribe's access to water and financial resources necessary to develop its valuable agricultural lands and frustrated its efforts to reduce its dependence

on Federal program funding and achieve meaningful self-determination and self-sufficiency;

(6) proceedings to determine the full extent and nature of the Tribe's water rights are currently pending before the United States District Court in Arizona and in the Superior Court of the State of Arizona in and for Maricopa County, as part of the General Adjudication of the Gila River System and Source;

(7) recognizing that final resolution of pending litigation will take many years and entail great expense to all parties, continue economically and socially damaging limits to the Tribe's access to water, prolong uncertainty as to the availability of water supplies and seriously impair the long-term economic planning and development of all parties, the Tribe and its neighboring non-Indian communities have sought to settle their dispute to water and reduce the burdens of litigation;

(8) after lengthy negotiations, which included participation by representatives of the United States Government, the Tribe, and neighboring non-Indian communities of the Salt River and Gila River Valleys, who are all party to the General Adjudication of the Gila River System and Source, the parties are prepared to enter into an Agreement to resolve all water rights claims between and among themselves, to quantify the Tribe's entitlement to water, and to provide for the orderly development of the Tribe's lands;

(9) pursuant to the Agreement, the neighboring non-Indian communities will relinquish claims to approximately fifty-eight thousand seven hundred and thirty-five acre-feet of surface water to the Tribe, provide the means of storing water supplies of the Tribe behind Coolidge Dam on the Gila River in Arizona to enhance fishing, recreation, and other environmental benefits, and make substantial additional contributions to carry out the Agreement's provisions; and

(10) to advance the goal of Federal Indian policy and to fulfill the trust responsibility of the United States to the Tribe, it is appropriate that the United States participate in the implementation of the Agreement and contribute funds for the rehabilitation and expansion of existing reservation irrigation facilities so as to enable the Tribe to utilize fully its water resources in developing a diverse, efficient reservation economy.

(b) PURPOSES OF TITLE.—It is the purpose of this title—

(1) to approve, ratify, and confirm the Agreement to be entered into by the Tribe and its neighboring non-Indian communities,

(2) to authorize and direct the Secretary of the Interior to execute and perform such Agreement, and

(3) to authorize the actions and appropriations necessary for the United States to fulfill its legal and trust obligations to the Tribe as provided in the Agreement and this title.

Joint Resolution

Oct. 30, 1992
[H.J. Res. 422]

Designating November 1992 as "Neurofibromatosis Awareness Month".

Whereas neurofibromatosis is a genetic disorder that causes tumors to grow in the human nervous system;
Whereas neurofibromatosis is the most common tumor-causing genetic disorder of the nervous system;
Whereas neurofibromatosis leads to disfigurement, blindness, deafness, loss of limbs, scoliosis, and brain and spinal tumors;
Whereas neurofibromatosis is a potentially debilitating disorder that strikes males and females of all races and ethnic groups;
Whereas great strides have been made in neurofibromatosis research with the discovery of the neurofibromatosis gene and its product and function as well as the cloning of the NF1 gene;
Whereas the neurofibromatosis gene is known to be a tumor suppressor gene, research into neurofibromatosis has profound significance for investigations into the causes of cancer;
Whereas an animal model for NF1 has recently been found;
Whereas a candidate gene for NF2 has also been discovered;
Whereas because the incidence of learning disabilities in the population of individuals suffering from neurofibromatosis is 5 times greater than in the general population, progress in neurofibromatosis research is important to achieving a better understanding of the causes of learning disabilities, which affect more than 30 million Americans; and
Whereas the National Neurofibromatosis Foundation, Inc., a voluntary health organization with chapters across the United States, was established to serve individuals with neurofibromatosis and their families, to promote and support biomedical research on neurofibromatosis, and to increase public awareness of neurofibromatosis and its consequences: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That November 1992 is designated as "Neurofibromatosis Awareness Month". The President is authorized and requested to issue a proclamation calling on the people of the United States to observe the month with appropriate ceremonies and activities.

SEC. 2. FINDINGS.

Congress finds that—

(1) a sound and strong infrastructure is the essential core and foundation of the Nation's economic well-being and growth and its ability to compete in the global economy;

(2) the Nation's infrastructure has been sorely neglected for years, and there is a desperate need at every level of government to increase infrastructure investment for the benefit of future generations;

(3) it is the responsibility of the Federal Government to provide coordination, direction, and assistance in the restoration and maintenance of a sound infrastructure, including a national transportation system involving surface, air, and water transportation and facilities for restoration and preservation of water quality, prevention of damages from floods, and provision of hydroelectric power and municipal and industrial water supplies;

(4) it should be a goal of the United States to develop a national intermodal transportation system that moves people and goods in an efficient manner;

(5) the Nation's future economic direction is dependent on its ability to confront directly the enormous challenges of the global economy, declining productivity growth, energy vulnerability, air pollution, water pollution, and the need to rebuild the Nation's infrastructure;

(6) a national intermodal transportation system is a coordinated, flexible network of diverse but complementary forms of transportation which moves people and goods in the most efficient manner;

(7) a national intermodal transportation system will enhance the ability of United States industry to compete in the global marketplace by reducing transportation costs;

(8) all forms of transportation, including the transportation systems of the future, will be full partners in the effort to reduce energy consumption and air pollution while promoting economic development and productivity growth;

(9) investment in the infrastructure of the United States will pay immediate and long-term dividends in jobs and economic productivity and provide the foundation for the Nation's continued leadership in the global economic competition of the 21st century;

(10) infrastructure investment differs significantly from other forms of government spending because it creates new wealth for the Nation;

(11) the wealth and economic strength of the United States is in the Nation's infrastructure which provides the foundation for all aspects of life;

(12) failure to invest in the Nation's infrastructure has placed the United States in danger of becoming a service-oriented economy rather than having a strong and independent manufacturing-based economy;

(13) foreign competitors in the global economy have surpassed the Nation's productivity growth through massive infrastructure investments, and many foreign competitors have committed to making multi-trillion dollar infrastructure investments in the future;

(14) the improvement of the Nation's coastal ports is critical to its ability to compete in the global economy through the efficient import and export of goods;

(15) the improvement of the Nation's inland waterway system is a central part of a national intermodal transportation system which permits the efficient transport of goods between markets within the Nation and between inland markets and coastal ports;

(16) the prevention of massive flood damages to the Nation's cities, industries, cultural facilities, municipal facilities, and transportation system plays a vital role in the protection of the Nation's infrastructure and the efficient conduct of commerce;

(17) the provision of municipal and industrial water supply plays a crucial role in the well-being and functioning of the Nation's communities and industries and in the health, environment, and quality of life of the Nation;

(18) the generation of hydroelectric power contributes significantly to the Nation's supply of low-cost energy and plays a significant role in reducing air pollution;

(19) the provision of recreational opportunities and the protection and enhancement of fish and wildlife habitat and environmental values contribute to the well-being of the people of the Nation; and

(20) improvement and protection of the Nation's infrastructure is an essential, proper, and necessary role of government at all levels.

(1) development, monitoring, assessment, and dissemination of information about foreign water transportation and port facilities that could significantly improve water transportation in the United States;

(2) research, development, training, and other forms of technology transfer and exchange; and

(3) offering technical services which cannot be readily obtained in the private sector to be incorporated in the proposals of port authorities or other water transportation developers if the costs for assistance will be recovered under the terms of each project.

(b) COOPERATION.—The Secretary may carry out the provisions of this section in cooperation with Federal departments and agencies, State and local agencies, authorities, institutions, corporations (profit or nonprofit), foreign governments, or other organizations.

(c) FUNDING.—The funds to carry out the provisions of this section shall include funds deposited in a special account with the Secretary of the Treasury for such purposes by any cooperating entity or organization according to cost-sharing agreements proscribed by the Secretary. Reimbursement for services provided under this section shall be credited to the appropriation concerned.

33 USC 2268.

"(B) is arbitrary or capricious; or

"(C) is not applicable or is not being applied to all projects without regard to Federal, State, or private participation and the Secretary of the Army concurs in such finding.

"(3) EXEMPTION FROM STATE REQUIREMENTS.—The President may exempt a Federal project from any State requirement respecting dumping of materials into ocean waters if it is in the paramount interest of the United States to do so.

"(4) CONSIDERATION OF SITE OF ORIGIN PROHIBITED.—Any requirement respecting dumping of materials into ocean waters applied by a State shall be applied without regard to the site of origin of the material to be dumped.".

SEC. 506. SITE DESIGNATION.

The Administrator shall designate sites or time periods for dumping that will mitigate adverse impact on the environment to the greatest extent practicable.

"(2) PROHIBITIONS REGARDING SITE OR TIME PERIOD.—In any case where the Administrator determines that, with respect to certain materials, it is necessary to prohibit dumping at a site or during a time period, the Administrator shall prohibit the dumping of such materials in such site or during such time period. This prohibition shall apply to any dumping at the site or during such time period. This prohibition shall apply to any dumping at the site or during the time period, including any dumping under section 103(e).

(1) in the last sentence by inserting "maximum" before "extent feasible"; and

(2) by adding at the end the following: "In any case in which the use of a designated site is not feasible, the Secretary may, with the concurrence of the Administrator, select an alternative site. The criteria and factors established in section 102(a) relating to site selection shall be used in selecting the alternative site in a manner consistent with the application of such factors and criteria pursuant to section 102(c). Disposal at or in the vicinity of an alternative site shall be limited to a period of not greater than 5 years unless the site is subsequently designated pursuant to section 102(c); except that an alternative site may continue to be used for an additional period of time that shall not exceed 5 years if—

"(1) no feasible disposal site has been designated by the Administrator;

"(2) the continued use of the alternative site is necessary to maintain navigation and facilitate interstate or international commerce; and

SEC. 2. FINDINGS.

49 USC app. 2201 note.

Congress finds that—

(1) the Nation's aviation system must be part of an intermodal transportation system consisting of hubs and interconnections with other forms of transportation that will move people and goods in the fastest, most efficient manner;

(2) our Nation's airports are our interconnections with the global economy; expanded flight capacity and greatly improved ground access for passengers and cargo are essential to our Nation's ability to compete in the international marketplace;

(3) without significant additional financial resources, the Nation's airports will be unable to accommodate fully the growing aviation and ground traffic demands of the 1990's;

(4) 27 of the Nation's top 100 airports are now unacceptably congested and the resulting delays in flights are costing our economy billions of dollars a year in lost productivity and undermining the Nation's ability to compete in the global economy;

(5) unless the capacity of our airports is increased substantially, the problem of flight delays will escalate dramatically and, by the year 2000, 40 major airports will be congested and incurring more than 20,000 hours of flight delay a year;

(6) the Nation must undertake an airport improvement and development program costing at least $7,000,000,000 a year over the next decade just to prevent the problem of airport delay from growing worse in the 21st century;

(7) neither State, local, nor Federal Government can independently finance the needed airport and intermodal development and there must be a combined effort relying on all levels of government;

(8) both the Federal airport improvement program and local passenger facility charge programs are essential to funding the development, as part of an intermodal transportation system, of airports (including necessary ground access eligible for funding under such programs) which meet our Nation's needs;

(9) the Nation's air traffic control system must be modernized with the highest advanced technology to enable it to con-

tinue to move traffic safely and efficiently and the necessary development and procurement of capital equipment will cost at least $18,000,000,000 over the next decade;

(10) the modernization of the air traffic control system will result in productivity and safety benefits of $257,000,000,000 over the life of the equipment purchased; these benefits include the value of time saved by airline passengers, reductions in airline operating costs, and reduced government expenditures and benefits from increased safety;

(11) there will need to be a continuing increase in staffing for the air traffic control system to enable controllers to handle, safely and efficiently, the increased workload which will arise as air transportation grows over the next decade;

(12) the Federal Government must play a major role in developing our aviation system; full use must be made of the more than $5,000,000,000 which aviation users contribute to the Airport and Airway Trust Fund each year and the $7,400,000,000 surplus which has accumulated in the Trust Fund;

(13) although survival of a strong and competitive airline industry is essential to our Nation's economic future—the Nation's airlines are in a financial and competitive crisis which threatens our entire aviation system and our Nation's ability to move people; major airlines have lost more than $6,000,000,000 over the past 2 years; many airlines have merged or discontinued operations; and new entry into the industry has ceased;

(14) the opportunities for new entrants and financially weak airlines to compete successfully can be maximized by the development of new airport capacity, particularly terminal facilities and gates, which will facilitate the ability of new airlines to compete against the airlines which now dominate the facilities at major hub airports;

(15) investment in the aviation transportation infrastructure of the United States will pay immediate and long-term dividends in jobs and economic productivity and provide the foundation for the Nation's continued leadership in the global economic competition of the 21st century;

(16) infrastructure investment differs significantly from other forms of government spending because it creates new wealth for the Nation;

(17) the wealth and economic strength of the United States is in the Nation's infrastructure which provides the foundation for all aspects of life;

(18) failure to invest in the transportation infrastructure, including aviation, has placed the United States in danger of becoming a service-oriented economy, rather than having a strong and independent manufacturing-based economy;

(19) the creation of a national intermodal transportation system is central to the transportation issues of the coming decades and will create the new wealth of the Nation to provide the funds for the Nation to meet the challenges of the 21st century;

(20) our Nation should devote greater efforts to integrating the aviation system with highway and mass transit facilities providing access to airports;

(21) transportation planning, taking account of commerce and land-use patterns, must be improved at all levels and local officials must have a significant role in transportation decisions affecting their areas;

(22) failure to develop an improved intermodal transportation system for the 1990's and the 21st century will result in continuing the two decade trend of decline in United States competitiveness in the global economy and the accompanying decline in the Nation's standard of living;

(23) the safety of the traveling public is of paramount national importance;

(24) aircraft deicing is an important element of aviation safety and past aircraft incidents suggest that both the Federal Government and private industries should focus on methods to improve aircraft deicing procedures and facilities;

(25) noise associated with the use of our Nation's airports must be reduced and efforts to mitigate noise must be continued;

(26) airports must use the airport noise planning program to ensure that capacity expansion minimizes noise to the surrounding community;

(27) the Nation's air traffic control system must be modernized with the most advanced technology, and the necessary capital equipment must be developed and procured, in order to continue the safe and efficient operation of the national airspace system;

(28) there will need to be a continuing increase in the number of aviation safety inspectors to handle the current and future workload of the air carrier and commuter industry; and

(29) the United States airline industry lost more than $6 billion in 1990 and 1991, the number of air carriers serving the public has declined substantially as a result of the industry's financial distress and the absence of governmental policies to promote competition, and continued financial losses could result in the further loss of air carrier competition and service to the traveling public.

TITLE I—AIRPORT AND AIRWAY IMPROVEMENT ACT AMENDMENTS

SEC. 101. DECLARATION OF POLICY.

(a) NATIONAL TRANSPORTATION POLICY.—Section 502 of the Airport and Airway Improvement Act of 1982 (49 U.S.C. App. 2201) is amended by adding at the end the following:

"(c) NATIONAL TRANSPORTATION POLICY.—

"(1) It is a goal of the United States to develop a national intermodal transportation system that moves people and goods in an efficient manner. The Nation's future economic direction is dependent on its ability to confront directly the enormous challenges of the global economy, declining productivity growth, energy vulnerability, air pollution, and the need to rebuild the Nation's infrastructure.

"(2) United States leadership in the world economy, the expanding wealth of the Nation, the competitiveness of the

Nation's industry, the standard of living, and the quality of life are at stake.

"(3) A national intermodal transportation system is a coordinated, flexible network of diverse but complementary forms of transportation which moves people and goods in the most efficient manner. By reducing transportation costs, these intermodal systems will enhance United States industry's ability to compete in the global marketplace.

"(4) All forms of transportation, including aviation and other transportation systems of the future, will be full partners in the effort to reduce energy consumption and air pollution while promoting economic development.

"(5) An intermodal transportation system consists of transportation hubs which connect different forms of appropriate transportation and provides users with the most efficient means of transportation and with access to commercial centers, business locations, population centers, and the Nation's vast rural areas, as well as providing links to other forms of transportation and to intercity connections.

"(6) Intermodality and flexibility are paramount issues in the process of developing an integrated system that will obtain the optimum yield of United States resources.

"(7) The United States transportation infrastructure must be reshaped to provide the economic underpinnings for the Nation to compete in the 21st century global economy. The United States can no longer rely on the sheer size of its economy to dominate international economic rivals and must recognize fully that its economy is no longer a separate entity but is part of the global marketplace. The Nation's future economic prosperity depends on its ability to compete in an international marketplace that is teeming with competitors but where a full one-quarter of the Nation's economic activity takes place.

"(8) The United States must make a national commitment to rebuild its infrastructure through development of a national intermodal transportation system. The United States must provide the foundation for its industries to improve productivity and their ability to compete in the global economy with a system that will move people and goods faster in an efficient manner.".

(b) CAPACITY EXPANSION AND NOISE ABATEMENT.—Such section is further amended by adding at the end the following new subsection:

"(d) CAPACITY EXPANSION AND NOISE ABATEMENT.—It is in the public interest to recognize the effects of airport capacity expansion projects on aircraft noise. Efforts to increase capacity through any means can have an impact on surrounding communities. Noncompatible land uses around airports must be reduced and efforts to mitigate noise must be given a high priority.".

SEC. 204. NATIONAL COMMISSION TO PROMOTE A STRONG AND COMPETITIVE AIRLINE INDUSTRY.

49 USC app. 1371 note.

(a) FINDINGS.—Congress finds the following:

(1) The Nation's airlines must be part of an intermodal transportation system that will move people and goods in the fastest, most efficient manner.

(2) The Nation's airlines provide our connections with the global economy. A strong airline industry is essential to our Nation's ability to compete in the international marketplace.

(3) The Nation's airlines are in a state of financial distress, having lost more than $6,000,000,000 in 1990 and 1991. These losses threaten the ability of our airlines to accommodate the growing aviation traffic demands of the 1990's which threaten to undermine our Nation's ability to compete in the global economy.

(4) Because of the airline industry's financial distress and the absence of government policies to promote competition, there has been a precipitous decline in the number of major airlines. Of the 22 airlines which entered the industry following airline deregulation, only 2 are now operating. The rest have either gone out of business or merged with other carriers.

(5) Concentration in the airline industry has advanced rapidly in the past few years. The top 4 major airlines now control 67 percent of aviation traffic and the top 7 airlines now control 91 percent of aviation traffic. Three major airlines, carrying 19 percent of aviation traffic, are in chapter 11 bankruptcy and their survival is in doubt.

(6) The continued success of a deregulated airline system requires the spur of effective actual and potential competition to force airlines to provide high quality service at the lowest possible fares.

(7) Further reductions in the number of major airlines may leave the industry without sufficient competition to ensure a continuation of the benefits consumers have received under airline deregulation.

(b) ESTABLISHMENT.—There is established a commission to be known as the "National Commission to Ensure a Strong Competitive Airline Industry" (hereinafter in this section referred to as the "Commission").

(c) FUNCTIONS.—

(1) INVESTIGATION AND STUDY.—The Commission shall make a complete investigation and study of the financial condition of the airline industry, the adequacy of competition in the airline industry, and legal impediments to a financially strong and competitive airline industry.

(2) POLICY RECOMMENDATIONS.—Based on the results of the investigation and study to be conducted under paragraph (1), the Commission shall recommend to the President and Congress those policies which need to be adopted to—

(A) achieve the national goal of a strong and competitive airline system which will facilitate the ability of the Nation to compete in the global economy;

(B) provide adequate levels of competition and service at reasonable fares in cities of all sizes;

(C) retard the flow of United States air carrier bankruptcies and accompanying loss of jobs for United States citizens;

(D) provide a stable work environment for airline industry employees; and

(E) continue to reduce noise for citizens around airports without damaging the economic or competitive positions of the air carriers.

(3) CONSIDERATION OF AIRCRAFT NOISE ABATEMENT.—In carrying out the study and investigation under paragraph (1), the Commission shall take into account aircraft noise abatement, a priority established by Congress by enactment of the Airport Noise and Capacity Act of 1990.

(d) SPECIFIC MATTERS TO BE ADDRESSED.—The Commission shall specifically investigate and study under subsection (c)(1) the following:

(1) FINANCIAL CONDITION OF AIRLINE INDUSTRY.—The current financial condition of the airline industry and how the industry's financial condition is likely to change over the next 5 years, including—

(A) the profits or losses likely to be achieved by the airline industry over the next 5 years;

(B) whether or not any profits realized will be adequate to permit airlines to acquire the capital equipment necessary to meet the demand of the traveling public in a safe and efficient manner, while complying with environmental regulations; and

(C) whether or not any major airlines are likely to fail or sell major assets in order to survive.

(2) ADEQUACY OF COMPETITION.—The current state of competition in the airline industry, how the structure of airline industry competition is likely to change over the next 5 years, and whether or not the expected level of competition will be sufficient to continue the consumer benefits of airline deregulation.

(3) LEGAL IMPEDIMENTS TO A FINANCIALLY STRONG AND COMPETITIVE AIRLINE INDUSTRY.—Whether or not the Federal Government should take any legislative or administrative actions to improve the financial conditions of the airline industry or to enhance airline competition, including whether or not any changes are needed in the legal and administrative policies which govern—

(A) the initial award and the transfer of international airline routes;

(B) the allocation of slots at high density airports;

(C) the allocation of gates, particularly at airports dominated by 1 or a limited number of airlines;

(D) frequent flier programs;

(E) airline computer reservations systems;

(F) the rights of foreign investors to invest in United States airlines;

(G) the taxes and user fees imposed on United States airlines;

(H) the regulatory responsibilities imposed on United States airlines;

(I) the bankruptcy laws of the United States and related fitness rules administered by the Department of Transportation as they apply to airlines; and

(J) the obligations of failing airlines to meet pension obligations.

(4) INTERNATIONAL AVIATION POLICY.—Whether or not the policies and strategies followed by the United States in international aviation are promoting the ability of United States airlines to achieve long-term competitive success in international markets, including—

(A) the Government's general negotiating policy;

(B) the desirability of multilateral rather than bilateral negotiations;

(C) whether or not foreign countries have developed the necessary infrastructure of airports and airways to enable United States airlines to provide the service needed to meet the demand for aviation service between the United States and such countries;

(D) the rights granted foreign airlines to provide service in United States domestic markets ("cabotage"); and

(E) the rights granted foreign investors to invest in United States airlines.

(5) ASSESSMENT OF AIRCRAFT MANUFACTURING INDUSTRY.—The state of the United States aircraft manufacturing industry and make recommendations to the President and Congress concerning policies that will help foster a healthy, competitive United States aircraft manufacturing industry.

(6) STUDY OF INCENTIVES FOR EXPEDITED FLEET CONVERSION.—The possibility of long-term loan guarantees and tax incentives for air carriers to expedite the conversion of the commercial airline fleet from Stage 2 to Stage 3 aircraft in advance of the deadlines established by the Airport Noise and Capacity Act of 1990.

Public Law 102-582
102d Congress

An Act

Nov. 2, 1992
[H.R. 2152]

To enhance the effectiveness of the United Nations international driftnet fishery conservation program.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

High Seas Driftnet Fisheries Enforcement Act.
16 USC 1801 note.
16 USC 1826a note.

SECTION 1. SHORT TITLE.

This Act may be cited as the "High Seas Driftnet Fisheries Enforcement Act".

SEC. 2. FINDINGS AND POLICY.

(a) FINDINGS.—Congress makes the following findings:

(1) Large-scale driftnet fishing on the high seas is highly destructive to the living marine resources and ocean ecosystems of the world's oceans, including anadromous fish and other living marine resources of the United States.

(2) The cumulative effects of large-scale driftnet fishing pose a significant threat to the marine ecosystem, and slow-reproducing species like marine mammals, sharks, and seabirds may require many years to recover.

(3) Members of the international community have reviewed the best available scientific data on the impacts of large-scale pelagic driftnet fishing, and have failed to conclude that this practice has no significant adverse impacts which threaten the conservation and sustainable management of living marine resources.

(4) The United Nations, via General Assembly Resolutions numbered 44–225, 45–197, and most recently 46–215 (adopted on December 20, 1991), has called for a worldwide moratorium on all high seas driftnet fishing by December 31, 1992, in all the world's oceans, including enclosed seas and semi-enclosed seas.

(5) The United Nations has commended the unilateral, regional, and international efforts undertaken by members of the international community and international organizations to implement and support the objectives of the General Assembly resolutions.

(6) Operative paragraph (4) of United Nations General Assembly Resolution numbered 46–215 specifically "encourages all members of the international community to take measures individually and collectively to prevent large-scale pelagic driftnet fishing operations on the high seas of the world's oceans and seas".

(7) The United States, in section 307(1)(M) of the Magnuson Fishery Conservation and Management Act (16 U.S.C. 1857(1)(M)), has specifically prohibited the practice of large-scale driftnet fishing by United States nationals and vessels both within the exclusive economic zone of the United States and beyond the exclusive economic zone of any nation.

(8) The Senate, through Senate Resolution 396 of the One Hundredth Congress (approved on March 18, 1988), has called for a moratorium on fishing in the Central Bering Sea and the United States has taken concrete steps to implement such moratorium through international negotiations.

(9) Despite the continued evidence of a decline in the fishery resources of the Bering Sea and the multiyear cooperative negotiations undertaken by the United States, the Russian Federation, Japan, and other concerned fishing nations, some nations refuse to agree to measures to reduce or eliminate unregulated fishing practices in the waters of the Bering Sea beyond the exclusive economic zones of the United States and the Russian Federation.

(10) In order to ensure that the global moratorium on large-scale driftnet fishing called for in United Nations General Assembly Resolution numbered 46–215 takes effect by December 31, 1992, and that unregulated fishing practices in the waters of the Central Bering Sea are reduced or eliminated, the United States should take the actions described in this Act and encourage other nations to take similar action.

(b) POLICY.—It is the stated policy of the United States to—

(1) implement United Nations General Assembly Resolution numbered 46–215, approved unanimously on December 20, 1991, which calls for an immediate cessation to further expansion of large-scale driftnet fishing, a 50 percent reduction in existing large-scale driftnet fishing effort by June 30, 1992, and a global moratorium on the use of large-scale driftnets beyond the exclusive economic zone of any nation by December 31, 1992;

(2) bring about a moratorium on fishing in the Central Bering Sea, or an international conservation and management agreement to which the United States and the Russian Federation are parties that regulates fishing in the Central Bering Sea; and

(3) secure a permanent ban on the use of destructive fishing practices, and in particular large-scale driftnets, by persons or vessels fishing beyond the exclusive economic zone of any nation.

"(B) Under the Single Convention on Narcotic Drugs, 1961, and under the United Nations Convention Against Illicit Traffic in Narcotic Drugs and Psychotropic Substances, the parties are required to criminalize certain drug-related activities, pro-

vide appropriately severe penalties, and cooperate in the extradition of accused offenders.

"(D) The international community should provide assistance, where appropriate, to those producer and transit countries which require assistance in discharging these primary obligations.

"(E) The objective of the United States in dealing with the problem of international money laundering is to ensure that countries adopt comprehensive domestic measures against money laundering and cooperate with each other in narcotics money laundering investigations, prosecutions, and related forfeiture actions.

(b) AUTHORITY TO CONCLUDE AGREEMENTS.—Section 481(a)(2) of that Act is amended by inserting ", including reciprocal maritime agreements," after "agreements". 22 USC 2291.

"(8) Having been requested to do so by the United States Government, does that government fail to provide reasonable cooperation to lawful activities of United States drug enforcement agents, including the refusal of permission to such agents engaged in interdiction of aerial smuggling into the United States to pursue suspected aerial smugglers a reasonable distance into the airspace of the requested country?

"(9) Has that government made necessary changes in legal codes in order to enable law enforcement officials to move more effectively against narcotics traffickers, such as new conspiracy laws and new asset seizure laws?

16 USC 668dd note.

SECTION 1. SHORT TITLE.

This Act may be cited as the "Arkansas-Idaho Land Exchange Act of 1992".

16 USC 668dd note.

SEC. 2. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress finds that—

(1) the Potlatch Corporation has offered to the United States Government an exchange of lands under which Potlatch would receive approximately 17,625 acres of scattered tracts of Federal lands in the State of Idaho in return for conveying to the United States lands owned by Potlatch consisting of approximately 40,922 acres of undisturbed bottomland hardwood lands in the State of Arkansas and approximately 1,170 acres of lands with important recreational and fisheries values in the State of Idaho;

(2) the lands in Arkansas that Potlatch has offered to convey to the United States are surrounded by Federal and State lands on the Cache and White Rivers which are designated as a "Wetland of International Importance" under the Convention on Wetlands of International Importance (commonly referred to as the "Ramsar Convention"), one of only 10 areas in the United States so designated;

(3) acquisition of these lands by the United States will remove the lands from sustained timber production and other development in the heart of this critical wetland ecosystem;

(4) the lands Potlatch has offered to convey to the United States will qualify for inclusion as a Wetland of International Importance under the Ramsar Convention;

(5) the lands Potlatch has offered to convey to the United States are outstanding fish and wildlife habitat and should continue to be made available for activities such as public hunting, fishing, trapping, nature observation, enjoyment, and education;

(6) the lands the United States would convey to Potlatch do not contain comparable fish, wildlife, or wetland values;

(7) appraisals of all lands to be conveyed in the exchange have been completed; and

(8) the United States and Potlatch have agreed to the values and boundaries of all lands to be conveyed in the exchange and concur that the lands to be conveyed by Potlatch and the lands to be conveyed by the United States are of equal value.

(b) PURPOSE.—The purpose of this Act is to authorize and require the Secretary and the Secretary of Agriculture to participate

in an exchange of lands that will provide environmental and economic benefits to the States of Arkansas and Idaho and to the Nation.

SEC. 9. AMENDMENT TO THE CHILD ABUSE PREVENTION AND TREATMENT ACT.

42 USC 5106a note.

(a) FINDINGS.—The Congress finds that—

(1) circumstances surrounding the death of a young boy named Adam Mann in New York City prompted a shocking documentary focusing on the inability of child protection services to protect suffering children;

(3) thorough, coordinated, and comprehensive investigation will, it is hoped, lead to the prevention of abuse, neglect, or death in the future;

(4) an undue burden is placed on investigation due to strict Federal and State laws and regulations regarding confidentiality;

(5) while the Congress recognizes the importance of maintaining the confidentiality of records pertaining to child abuse, neglect, and death, often the purpose of confidentiality laws and regulations are defeated when they have the effect of protecting those responsible;

(6) comprehensive and coordinated interagency communication needs to be established, with adequate provisions to protect against the public disclosure of any detrimental information need to be established;

(7) certain States, including Georgia, North Carolina, California, Missouri, Arizona, Minnesota, Oklahoma, and Oregon, have taken steps to establish by statute interagency, multidisciplinary fatality review teams to fully investigate

incidents of death believed to be caused by child abuse or neglect;

(8) teams such as those described in paragraph (7) should be established in every State, and their scope of review should be expanded to include egregious incidents of child abuse and neglect before the child in question dies; and

(9) teams such as those described in paragraph (7) will increase the accountability of child protection services.

(b) MODIFICATION OF CONFIDENTIALITY PROVISION REGARDING STATE GRANTS UNDER CHILD ABUSE PREVENTION AND TREATMENT ACT.—Section 107(b)(4) of the Child Abuse Prevention and Treatment Act (42 U.S.C. 5106A(b)(4)) is amended to read as follows: 42 USC 5106a.

"(4) provide for—

"(A) methods to preserve the confidentiality of all records in order to protect the rights of the child and of the child's parents or guardians, including methods to ensure that disclosure (and redisclosure) of information concerning child abuse or neglect involving specific individuals is made only to persons or entities that the State determines have a need for such information directly related to purposes of this Act; and

"(B) requirements for the prompt disclosure of all relevant information to any Federal, State, or local governmental entity, or any agent of such entity, with a need for such information in order to carry out its responsibilities under law to protect children from abuse and neglect;".

(c) SENSE OF THE CONGRESS.—It is the sense of the Congress that each State should review and reform of the system in the State for protecting against child abuse and neglect, including implementing formal interagency, multidisciplinary teams—

(1) to review—

(A) all cases of child death in which the child was previously known by the State to have been abused or neglected; and

(B) incidents of child abuse before a child dies when there is evidence of negligent handling by the State,

in order to hold the State accountable; and

(2) to make recommendations regarding the outcomes of individual cases and systemic changes in the State's procedures for protecting against child abuse and neglect.

(a) FINDINGS.—The Congress finds the following:

(1) The oceans cover 70 percent of the surface of the Earth.

(2) The foundation of the food webs and fisheries productivity of the oceans rests with microscopic plants known as phytoplankton.

(3) Phytoplankton serve as a vital natural resource in the oceans.

(4) By serving as primary agents in control of the flux of atmospheric carbon dioxide to the deep ocean, phytoplankton influence climate and the rate of global warming.

(5) There is limited knowledge of the biology, physiology, chemistry, and taxonomy of phytoplankton, and it is of vital interest to this Nation to improve the body of knowledge relating to phytoplankton to benefit this Nation and other countries.

(6) The Provasoli-Guillard Center for the Culture of Marine Phytoplankton located in West Boothbay Harbor, Maine, houses a phytoplankton collection that contains species from each of the ocean environments of the World, and is recognized as the largest collection of phytoplankton in the World.

(7) The Provasoli-Guillard Center for the Culture of Marine Phytoplankton is of vital interest to oceanographers in this Nation and throughout the World, and provides cultures of phytoplankton for critical research on global issues.

Subtitle C—Hawaiian Islands Humpback Whale Sanctuary

Hawaiian Islands National Marine Sanctuary Act. 16 USC 1433 note.

SEC. 2301. SHORT TITLE.

This subtitle may be cited as the "Hawaiian Islands National Marine Sanctuary Act".

SEC. 2302. FINDINGS.

The Congress finds the following:

(1) Many of the diverse marine resources and ecosystems within the Western Pacific region are of national significance and importance.

(2) There are at present no ocean areas in the Hawaiian Islands designated as national marine sanctuaries or identified on the Department of Commerce's Site Evaluation List of sites to be investigated as potential candidates for designation as a national marine sanctuary under title III of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1431 et seq.).

(3) The Hawaiian Islands consist of eight major islands and 124 minor islands, with a total land area of 6,423 square miles and a general coastline of 750 miles.

(4) The marine environment adjacent to and between the Hawaiian Islands is a diverse and unique subtropical marine ecosystem.

(5) The Department of Commerce recently concluded in its Kahoolawe Island National Marine Sanctuary Feasibility Study that there is preliminary evidence of biological, cultural, and historical resources adjacent to Kahoolawe Island to merit further investigation for national marine sanctuary status.

(6) The Department of Commerce also concluded in its Kahoolawe Island National Marine Sanctuary Feasibility Study that there are additional marine areas within the Hawaiian archipelago which merit further consideration for national marine sanctuary status and that the national marine sanctuary program could enhance marine resource protection in Hawaii.

(7) The Hawaiian stock of the endangered humpback whale, the largest of the three North Pacific stocks, breed and calve within the waters of the main Hawaiian Islands.

(8) The marine areas surrounding the main Hawaiian Islands, which are essential breeding, calving, and nursing areas for the endangered humpback whale, are subject to damage and loss of their ecological integrity from a variety of disturbances.

(9) The Department of Commerce recently promulgated a humpback whale recovery plan which sets out a series of recommended goals and actions in order to increase the abundance of the endangered humpback whale.

(10) An announcement of certain Hawaiian waters frequented by humpback whales as an active candidate for marine sanctuary designation was published in the Federal Register on March 17, 1982 (47 FR 11544).

(11) The existing State and Federal regulatory and management programs applicable to the waters of the main Hawaiian Islands are inadequate to provide the kind of comprehensive and coordinated conservation and management of humpback whales and their habitat that is available under title III of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1431 et seq.).

(12) Authority is needed for comprehensive and coordinated conservation and management of humpback whales and their habitat that will complement existing Federal and State regulatory authorities.

(13) There is a need to support, promote, and coordinate scientific research on, and monitoring of, that portion of the marine environment essential to the survival of the humpback whale.

(14) Public education, awareness, understanding, appreciation, and wise use of the marine environment are fundamental to the protection and conservation of the humpback whale.

(15) The designation, as a national marine sanctuary, of the areas of the marine environment adjacent to the main Hawaiian Islands which are essential to the continued recovery of the humpback whale is necessary for the preservation and protection of this important national marine resource.

(16) The marine sanctuary designated for the conservation and management of humpback whales could be expanded to include other marine resources of national significance which are determined to exist within the sanctuary.

SEC. 2303. DEFINITIONS.

In this subtitle, the following definitions apply:

(1) The term "adverse impact" means an impact that independently or cumulatively damages, diminishes, degrades, impairs, destroys, or otherwise harms.

(2) The term "Sanctuary" means the Hawaiian Islands Humpback Whale National Marine Sanctuary designated under section 2305.

(3) The term "Secretary" means the Secretary of Commerce.

SEC. 2304. POLICY AND PURPOSES.

(a) POLICY.—It is the policy of the United States to protect and preserve humpback whales and their habitat within the Hawaiian Islands marine environment.

(b) PURPOSES.—The purposes of this subtitle are—

(1) to protect humpback whales and their habitat in the area described in section 2305(b);

(2) to educate and interpret for the public the relationship of humpback whales to the Hawaiian Islands marine environment;

(3) to manage such human uses of the Sanctuary consistent with this subtitle and title III of the Marine Protection, Research, and Sanctuaries Act of 1972, as amended by this Act; and

(4) to provide for the identification of marine resources and ecosystems of national significance for possible inclusion in the sanctuary designated in section 2305(a).

SEC. 2305. DESIGNATION OF SANCTUARY.

(A) DESIGNATION.—Subject to subsection (c), the area described in subsection (b) is designated as the Hawaiian Islands Humpback Whale National Marine Sanctuary under title III of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1451 et seq.), as amended by this title.

(b) AREA INCLUDED.—(1) Subject to subsections (c) and (d), the area referred to in subsection (a) consists of the submerged lands and waters off the coast of the Hawaiian Islands seaward of the upper reaches of the wash of the waves on shore—

(A) to the one hundred fathom (one hundred and eighty-three meter) isobath adjoining the islands of Lanai, Maui, and Molokai, including Penguin Bank but excluding the area within 3 nautical miles of the upper reaches of the waves on the shore of Kahoolawe Island;

(B) to the deep water area of Pailolo Channel from Cape Halawa, Molokai, to Nakalele Point, Maui, and southward; and

(C) to the one hundred fathom (one hundred and eighty-three meter) isobath adjoining the Kilauea National Wildlife Refuge on the island of Kauai.

(2)(A) On January 1, 1996, the area of the marine environment within 3 nautical miles of the upper reaches of the wash of the waves on the shore of Kahoolawe Island is designated a part of the Sanctuary, unless during the 3-month period immediately preceding January 1, 1996, the Secretary certifies in writing to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Merchant Marine and Fisheries of the House of Representatives that the area is not suitable for inclusion in the Sanctuary. If such certification is made, it shall be accompanied by a written explanation of the Secretary's reasoning in support of the certification.

(B) After a certification of unsuitability is made under subparagraph (A), the Secretary shall annually make a finding concerning the suitability of the area for inclusion in the Sanctuary and submit Reports.

to such congressional committees a report on that finding and the reasons thereof. If the Secretary finds that the area is suitable for inclusion in the Sanctuary, the area is designated a part of the Sanctuary on the 30th day after such report is submitted.

(C) Upon designation of the area under subparagraph (A) or (B), the area shall be managed as if it has been designated under section 2305, and the Secretary shall—

Federal Register, publication. Regulations.

(i) publish a notice in the Federal Register announcing the designation and identifying the area; and

(ii) issue such regulations for the area as are necessary to fulfill the Secretary's responsibilities under this subtitle and title III of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1431 et seq.).

(3) The Secretary shall generally identify and depict the Sanctuary on National Oceanic and Atmospheric Administration charts. Those charts shall be maintained on file and kept available for public examination during regular business hours at the Office of Ocean and Coastal Resource Management of the National Oceanic and Atmospheric Administration. The Secretary shall update the charts to reflect any boundary modification under subsection (d), and any additional designation under paragraph (2) of this subsection.

(c) EFFECT OF OBJECTION BY GOVERNOR.—(1) If within 45 days after the date of the enactment of this title the Governor of Hawaii certifies to the Secretary that the designation (including the prospective additional designation under subsection (b)(2) of the area within 3 nautical miles of Kahoolawe Island) is unacceptable, the designation shall not take effect in the area of the Sanctuary lying within the seaward boundary of the State of Hawaii.

(2) If within 45 days after the date of issuance of the comprehensive management plan and implementing regulations under section 2306 the Governor of Hawaii certifies to the Secretary that the management plan, any implementing regulation, or any term of the plan or regulations is unacceptable, the management plan, regulation, or term, respectively, shall not take effect in the area of the Sanctuary lying within the seaward boundary of the State of Hawaii.

(3) If the Secretary considers that an action taken under paragraph (1) or (2) will affect the Sanctuary in a manner that the goals and objectives of this subtitle cannot be fulfilled, the Secretary may terminate the entire designation under subsection (a). At least thirty days prior to such termination, the Secretary shall submit written notification of the proposed termination to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Merchant Marine and Fisheries of the House of Representatives.

(d) BOUNDARY MODIFICATIONS.—No later than the date of issuance of the draft environmental impact statement for the Sanctuary under section 304(a)(1)(C)(vii) of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1434(a)(1)(C)(vii)), the Secretary, in consultation with the Governor of Hawaii, if appropriate, may make modifications to the boundaries of the Sanctuary as necessary to fulfill the purpose of this subtitle. The Secretary shall submit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Merchant Marine and Fisheries of the House of Representatives a written notification of such modifications.

SEC. 2306. COMPREHENSIVE MANAGEMENT PLAN.

(a) PREPARATION OF PLAN.—The Secretary, in consultation with interested persons and appropriate Federal, State, and local government authorities, shall develop and issue not later than 18 months after the date of enactment of this title a comprehensive management plan and implementing regulations to achieve the policy and purposes of this subtitle. In developing the plan and regulations, the Secretary shall follow the procedures specified in sections 303 and 304 of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1433 and 1434), as amended by this title. Such comprehensive management plan shall—

(1) facilitate all public and private uses of the Sanctuary (including uses of Hawaiian natives customarily and traditionally exercised for subsistence, cultural, and religious purposes) consistent with the primary objective of the protection of humpback whales and their habitat;

(2) set forth the allocation of Federal and State enforcement responsibilities, as jointly agreed by the Secretary and the State of Hawaii;

(3) identify research needs and establish a long-term ecological monitoring program with respect to humpback whales and their habitat;

(4) identify alternative sources of funding needed to fully implement the plan's provisions and supplement appropriations under section 2307 of this subtitle and section 313 of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1444);

(5) ensure coordination and cooperation between Sanctuary managers and other Federal, State, and local authorities with jurisdiction within or adjacent to the Sanctuary; and

(6) promote education among users of the Sanctuary and the general public about conservation of humpback whales, their habitat, and other marine resources.

(b) PUBLIC PARTICIPATION.—The Secretary shall provide for participation by the general public in development of the comprehensive management plan or any amendment thereto.

SEC. 2307. AUTHORIZATION OF APPROPRIATIONS.

For carrying out this subtitle, there are authorized to be appropriated to the Secretary $500,000 for fiscal year 1993 and $300,000 for fiscal year 1994. Of the amounts appropriated under this section for fiscal year 1993—

(1) not less than $50,000 shall be used by the Western Pacific Regional Team to evaluate potential national marine sanctuary sites for inclusion on the Department of Commerce's Site Evaluation List; and

(2) not less than $50,000 shall be used to continue the investigation of biological, cultural, and historical resources adjacent to Kahoolawe Island.

TITLE III—MARINE MAMMAL STRANDINGS

Marine Mammal Health and Stranding Response Act. 16 USC 1361 note.

SEC. 3001. SHORT TITLE.

This title may be cited as the "Marine Mammal Health and Stranding Response Act".

16 USC 1421 note.

SEC. 3002. FINDINGS.

The Congress finds the following:

(1) Current stranding network participants have performed an undeniably valuable and ceaseless job of responding to marine mammal strandings over the last 15 years.

(2) Insufficient understanding of the connection between marine mammal health and the physical, chemical, and biological parameters of their environment prevents an adequate understanding of the causes of marine mammal unusual mortality events.

(3) An accurate assessment of marine mammal health, health trends in marine mammal populations in the wild, and causes of marine mammal unusual mortality events cannot be made without adequate reference data on marine mammals and the environment in which they live.

(4) A systematic assessment of the sources, presence, levels, and effects of potentially harmful contaminants on marine mammals would provide a better understanding of some of the causes of marine mammal unusual mortality events and may serve as an indicator of the general health of our coastal and marine environments.

(5) Responses to marine mammal unusual mortality events are often uncoordinated, due to the lack of sufficient contingency planning.

(6) Standardized methods for the reporting of dying, dead, or otherwise incapacitated marine mammals in the wild would greatly assist in the determination of the causes of marine mammal unusual mortality events and enhance general knowledge of marine mammal species.

(7) A formal system for collection, preparation, and archiving of, and providing access to, marine mammal tissues will enhance efforts to investigate the health of marine mammals and health trends of marine mammal populations, and to develop reference data.

(8) Information on marine mammals, including results of analyses of marine mammal tissues, should be broadly available to the scientific community, including stranding network participants, through a marine mammal data base.

SEC. 3003. MARINE MAMMAL HEALTH AND STRANDING RESPONSE PROGRAM.

(a) IN GENERAL.—The Marine Mammal Protection Act of 1972 (16 U.S.C. 1361 et seq.) is amended by adding at the end the following new title:

"(1) procedures and practices for—

"(A) rescuing and rehabilitating stranded marine mammals, including criteria used by stranding network participants, on a species-by-species basis, for determining at what point a marine mammal undergoing rescue and rehabilitation is returnable to the wild; and

"(B) collecting, preserving, labeling, and transporting marine mammal tissues for physical, chemical, and biological analyses;

"(2) appropriate scientific literature on marine mammal health, disease, and rehabilitation;

"(3) strandings, which the Secretary shall compile and analyze, by region, to monitor species, numbers, conditions, and causes of illnesses and deaths of stranded marine mammals; and

"(4) other life history and reference level data, including marine mammal tissue analyses, that would allow comparison of the causes of illness and deaths in stranded marine mammals with physical, chemical, and biological environmental parameters.

"(c) AVAILABILITY.—The Secretary shall make information collected under this section available to stranding network participants and other qualified scientists.

"SEC. 303. STRANDING RESPONSE AGREEMENTS. 16 USC 1421b.

"(a) IN GENERAL.—The Secretary may enter into an agreement under section 112(c) with any person to take marine mammals under section 109(h)(1) in response to a stranding.

"(b) REQUIRED PROVISION.—An agreement authorized by subsection (a) shall—

"(1) specify each person who is authorized to perform activities under the agreement; and

"(2) specify any terms and conditions under which a person so specified may delegate that authority to another person.

"(c) REVIEW.—The Secretary shall periodically review agreements under section 112(c) that are entered into pursuant to this title, for performance adequacy and effectiveness.

16 USC 1421c.

"SEC. 304. UNUSUAL MORTALITY EVENT RESPONSE.

Establishment.

"(a) RESPONSE.—

"(1) WORKING GROUP.—

"(A) The Secretary, acting through the Office, shall establish, in consultation with the Secretary of the Interior, a marine mammal unusual mortality event working group, consisting of individuals with knowledge and experience in marine science, marine mammal science, marine mammal veterinary and husbandry practices, marine conservation, and medical science, to provide guidance to the Secretary and the Secretary of the Interior for—

"(i) determining whether an unusual mortality event is occurring;

"(iii) developing the contingency plan in accordance with subsection (b), to assist the Secretary in responding to unusual mortality events.

"(B) The Federal Advisory Committee Act (5 App. U.S.C.) shall not apply to the marine mammal unusual mortality event working group established under this paragraph.

"(2) RESPONSE TIMING.—The Secretary, in consultation with the Secretary of the Interior, shall to the extent necessary and practicable—

"(A) within 24 hours after receiving notification from a stranding network participant that an unusual mortality event might be occurring, contact as many members as is possible of the unusual mortality event working group for guidance; and

"(B) within 48 hours after receiving such notification—

"(i) make a determination as to whether an unusual mortality event is occurring;

"(ii) inform the stranding network participant of that determination; and

"(iii) if the Secretary has determined an unusual mortality event is occurring, designate an Onsite Coordinator for the event, in accordance with subsection (c).

"(b) CONTINGENCY PLAN.—

"(1) IN GENERAL.—The Secretary shall, in consultation with the Secretary of the Interior and the unusual mortality event working group, and after an opportunity for public review and comment, issue a detailed contingency plan for responding to any unusual mortality event.

"(2) CONTENTS.—The contingency plan required under this subsection shall include—

"(A) a list of persons, including stranding network participants, at a regional, State, and local level, who can assist the Secretary in implementing a coordinated and effective response to an unusual mortality event;

"(B) the types of marine mammal tissues and analyses necessary to assist in diagnosing causes of unusual mortality events;

"(C) training, mobilization, and utilization procedures for available personnel, facilities, and other resources necessary to conduct a rapid and effective response to unusual mortality events; and

"(D) such requirements as are necessary to—

"(i) minimize death of marine mammals in the wild and provide appropriate care of marine mammals during an unusual mortality event;

"(ii) assist in identifying the cause or causes of an unusual mortality event;

"(iii) determine the effects of an unusual mortality event on the size estimates of the affected populations of marine mammals; and

"(iv) identify any roles played in an unusual mortality event by physical, chemical, and biological factors, including contaminants.

"(c) ONSITE COORDINATORS.—

"(1) DESIGNATION.—

"(A) The Secretary shall, in consultation with the Secretary of the Interior, designate one or more Onsite Coordinators for an unusual mortality event, who shall make immediate recommendations to the stranding network participants on how to proceed with response activities.

"(B) An Onsite Coordinator so designated shall be one or more appropriate Regional Directors of the National Marine Fisheries Service or the United States Fish and Wildlife Service, or their designees.

"(C) If, because of the wide geographic distribution, multiple species of marine mammals involved, or magnitude of an unusual mortality event, more than one Onsite Coordinator is designated, the Secretary shall, in consultation with the Secretary of the Interior, designate which of the Onsite Coordinators shall have primary responsibility with respect to the event.

"(2) FUNCTIONS.—

"(A) An Onsite Coordinator designated under this subsection shall coordinate and direct the activities of all persons responding to an unusual mortality event in accordance with the contingency plan issued under subsection (b), except that—

"(i) with respect to any matter that is not covered by the contingency plan, an Onsite Coordinator shall use his or her best professional judgment; and

"(B) An Onsite Coordinator may delegate to any qualified person authority to act as an Onsite Coordinator under this title.

16 USC 1421d.

"SEC. 305. UNUSUAL MORTALITY EVENT ACTIVITY FUNDING.

"(a) ESTABLISHMENT OF FUND.—There is established in the Treasury a fund to be known as the 'Marine Mammal Unusual Mortality Event Fund', which shall consist of amounts deposited into the Fund under subsection (c).

"(b) USES.—

"(d) The Secretary of the Interior, after the distribution, transfer, use, and deduction under subsections (a), (b), and (c), respectively, shall apportion the remainder of each such annual appropriation among the several States"; and

TITLE VII—PARTNERSHIPS FOR WILDLIFE

Partnerships for Wildlife Act. 16 USC 3741 note.

SEC. 7101. SHORT TITLE.

This Title may be cited as the "Partnerships for Wildlife Act".

16 USC 3741.

SEC. 7102. FINDINGS.

The Congress finds the following:

(1) Three-fourths of all American children and adults participate in wildlife-related recreational activities other than hunting, fishing and trapping.

(2) In 1985, Americans spent over $14 billion on nonconsumptive wildlife-related recreation.

(3) The United States and Canada are inhabited by approximately two thousand six hundred vertebrate species of native fish and wildlife, which have provided food, clothing, and other essentials to a rapidly expanding human population.

(4) Over 80 percent of vertebrate fish and wildlife species in North America are not harvested for human use.

(5) The continued well-being of this once-abundant fish and wildlife resource, and even the very existence of many species, is in peril.

(6) In 1967, the United States Fish and Wildlife Service reported that forty-five common migratory bird species, which are not hunted, had exhibited significant declines in abundance, and that thirteen of these species have experienced widespread,

systematic declines of 46.9 percent during a twenty-year study period.

(7) There have been nationwide declines in frogs and other amphibians.

(8) Over two hundred and seventy-five of vertebrate fish and wildlife species in the United States are now officially classified as threatened or endangered by the Federal Government.

(9) During the past decade, fish and wildlife species, including invertebrates, were added to the rapidly growing list of threatened and endangered species in North America at the average rate of over one per month.

(10) Currently, eighty-two species of invertebrates in the United States are listed as threatened or endangered under the Endangered Species Act, and another nine hundred and fifty-one United States invertebrate species are candidates for listing under that Act.

(11) Proper management of fish and wildlife, before species become threatened or endangered with extinction, is the key to reversing the increasingly desperate status of fish and wildlife.

(12) Proper fish and wildlife conservation includes not only management of fish and wildlife species taken for recreation and protection of endangered and threatened species, but also management of the vast majority of species which fall into neither category.

(13) Partnerships in fish and wildlife conservation, such as the Federal Aid in Wildlife Restoration Program, the Federal Aid in Sport Fish Restoration Program, and the North American Wetlands Conservation Act have benefitted greatly the conservation of fish and wildlife and their habitats.

(14) A program that encourages partnerships among Federal and State governments and private entities to carry out wildlife conservation and appreciation projects would benefit all species of fish and wildlife through such activities as management, research, and interagency coordination.

(15) Many States, which are experiencing declining revenues, are finding it increasingly difficult to carry out projects to conserve the entire array of diverse fish and wildlife species and to provide opportunities for the public to associate with, enjoy, and appreciate fish and wildlife through nonconsumptive activities.

SEC. 7103 PURPOSES. 16 USC 3742.

The purposes of this title are to establish a partnership among the United States Fish and Wildlife Service, designated State agencies, and private organizations and individuals—

(1) to carry out wildlife conservation and appreciation projects to conserve the entire array of diverse fish and wildlife species in the United States and to provide opportunities for the public to use and enjoy these fish and wildlife species through nonconsumptive activities;

(2) to enable designated State agencies to respond more fully and utilize their statutory and administrative authorities by carrying out wildlife conservation and appreciation projects; and

(3) to encourage private donations, under the leadership of the National Fish and Wildlife Foundation, to carry out wildlife conservation and appreciation projects.

16 USC 3743.

SEC. 7104. DEFINITIONS.

As used in this title—

(1) The terms "conserve" and "conservation" mean to use, and the use of, such methods and procedures which are necessary to ensure, to the maximum extent practicable, the well being and enhancement of fish and wildlife and their habitats for the educational, aesthetic, cultural, recreational, scientific, and ecological enrichment of the public. Such methods and procedures may include, but are not limited to, any activity associated with scientific resources management, such as research, census, law enforcement, habitat acquisition, maintenance, development, information, education, population manipulation, propagation, technical assistance to private landowners, live trapping, and transplantation.

(7) The term "Secretary" means the Secretary of the Interior, acting through the Director of the United States Fish and Wildlife Service.

(8) The term "wildlife conservation and appreciation project" means a project which is directed toward nonconsumptive activities or toward the conservation of those species of fish and wildlife that—

(A) are not ordinarily taken for recreation, fur, or food; except that if under applicable State law, any fish and wildlife may be taken for recreation, fur, or food in some but not all, areas of the State, a wildlife conservation and appreciation project may be directed toward the conservation of any of such fish and wildlife within any area of the State in which such taking is not permitted.

(B) are not listed as endangered species or threatened species under the Endangered Species Act of 1973, as amended (16 U.S.C. 1531–1543); and

(C) are not marine mammals within the meaning of section 3(5) of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1362(5)).

The amount of the civil penalty shall not exceed $100,000 for each violation. Each day of a continuing violation shall constitute a separate offense. The amount of such civil penalty shall be assessed by the Secretary of Commerce, or the Secretary's designee, by written notice. In determining the amount of such penalty, the Secretary of Commerce shall take into account the nature, circumstances, extent, and gravity of the prohibited acts committed and, with respect to the violation, the degree of culpability, any history of prior offenses, ability to pay, and such other matters as justice may require.

(6) For the purposes of conducting any hearing under this section, the Secretary of Commerce may issue subpoenas for the attendance and testimony of witnesses and the production of relevant papers, books, and documents, and may administer oaths. Witnesses summoned shall be paid the same fees and mileage that are paid to witnesses in the courts of the United States. All or part of such vessel may, and all such fish shall, be forfeited to the United States pursuant to a civil proceeding under this section.

(2) Any district court of the United States shall have jurisdiction, upon application of the Attorney General on behalf of the United States, to order any forfeiture authorized under paragraph (1) and any action provided for under paragraph (4). Courts.

(i) stay the execution of such process; or

(ii) discharge any fish seized pursuant to such process; upon receipt of a satisfactory bond or other security from any person claiming such property. Such bond or other security shall be conditioned upon such person delivering such property to the appropriate court upon order thereof, without any impairment of its value, or paying the monetary value of such property pursuant to an order of such court. Judgment shall be recoverable on such bond or other security against both the principal and any sureties in the event that any condition thereof is breached, as determined by such court.

(B) Any fish seized pursuant to this title may be sold, subject to the approval and direction of the appropriate court, for not less than the fair market value thereof. The proceeds of any such sale shall be deposited with such court pending the disposition of the matter involved.

(5) For purposes of this section, it shall be a rebuttable presumption that all fish found on board a fishing vessel and which is seized in connection with an act prohibited by section 8010 were taken or retained in violation of the Convention and this title.

Nov. 4, 1992
[H.R. 6135]

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

National Aeronautics and Space Administration Authorization Act, Fiscal Year 1993.

SECTION 1. SHORT TITLE.

This Act may be cited as the "National Aeronautics and Space Administration Authorization Act, Fiscal Year 1993".

TITLE I—AUTHORIZATION OF APPROPRIATIONS

SEC. 101. FINDINGS.

Congress finds that—

(1) investments in research and development are directly linked to long-term productivity and economic growth;

(2) as a major driver of advanced technology, the space program can play a major role in the Nation's reinvestment in civilian research and development;

(3) in addition to carrying out the Nation's goals in science and exploration, the space program makes a significant and direct contribution to the national employment base and, through the development of advanced technologies, will contribute to sustaining a healthy employment base and economy in the future;

(4) the long-term health of the United States space program is critically dependent on maintaining a stable and continuously evolving core program of science, space transportation, space exploration, space technology, and space applications;

(5) such a core program must be based on a realistic projection of resources that will be available and, in the near term, should not exceed inflationary growth;

(6) in addition to carrying out a core space program, international leadership, technological advancement, and expanded scientific knowledge will be enhanced by an expanded space program based on special initiatives in science, exploration, space transportation, space technology, and space applications;

(7) the Nation's space program can provide a productive environment for utilizing the skills of scientists and engineers formerly involved in the Nation's defense sector;

(8) civil space activities of the United States, whether made possible by, or in response to, Cold War strategic competition with the Soviet Union, must, in an era of declining political conflict, mature as instruments of United States foreign policy, and grow to support the national interest during the post-Cold War era;

(9) the national interest is furthered by trade and cooperation among friendly nations, and to the extent the former Soviet republics have shown themselves willing and capable of fostering a friendship with the United States, the national interest is furthered through trade and cooperation of mutual advantage between the United States and the former Soviet republics in civil aerospace, space science, and space exploration;

(10) a vigorous and coordinated effort by the United States and other spacefaring nations is needed to minimize the growth of orbital debris, and space activities should be conducted in a manner that minimizes the likelihood of additional orbital debris creation;

(11) the aerospace industry, rooted in aeronautics, is a major positive contributor to United States international influence and competitiveness;

(12) aeronautical research and development sustains our leadership in air transport and military aviation worldwide; and

(13) the National Aero-Space Plane is a core technology for any national aerospace policy and will permit the United States to maintain a worldwide competitive posture into the future.

SEC. 206. SPECIAL REPROGRAMMING AUTHORITY FOR CONSTRUCTION OF FACILITIES.

Where the Administrator determines that new developments or scientific or engineering changes in the national program of aeronautical and space activities have occurred; and that such changes require the use of additional funds for the purposes of construction, expansion, or modification of facilities at any location; and that deferral of such action until the enactment of the next authorization Act would be inconsistent with the interest of the Nation in aeronautical and space activities; the Administrator may transfer not to exceed one-half of 1 percent of the funds appropriated pursuant to section 102 (a) and (b) to the "Construction of Facilities" appropriation for such purposes. The Administrator may also use up to $10,000,000 of the amounts authorized under section 102(c) for such purposes.
